Test ADD

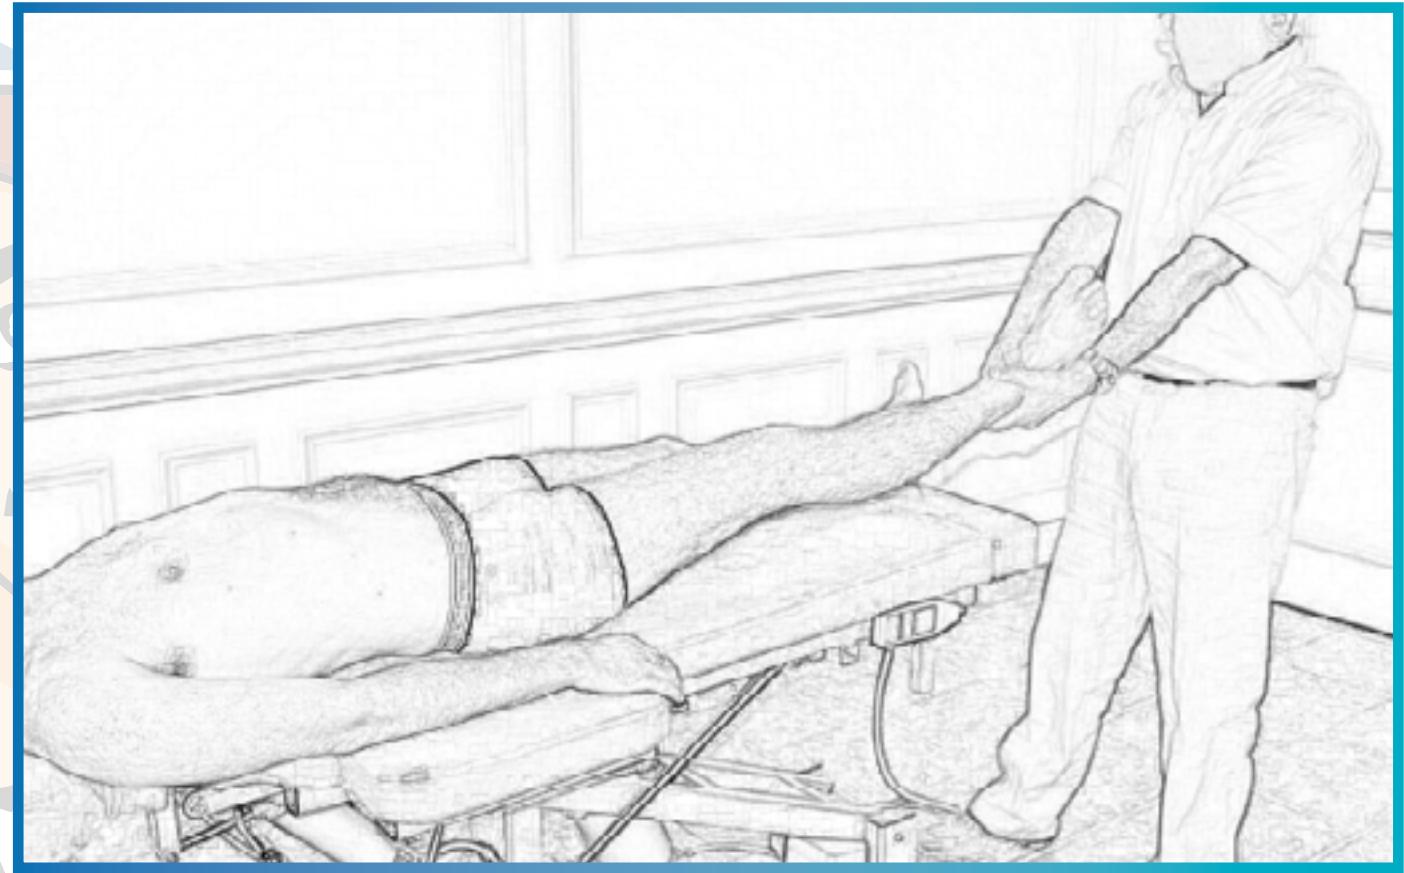

Servicio de rehabilitación

Las cadenas articulares

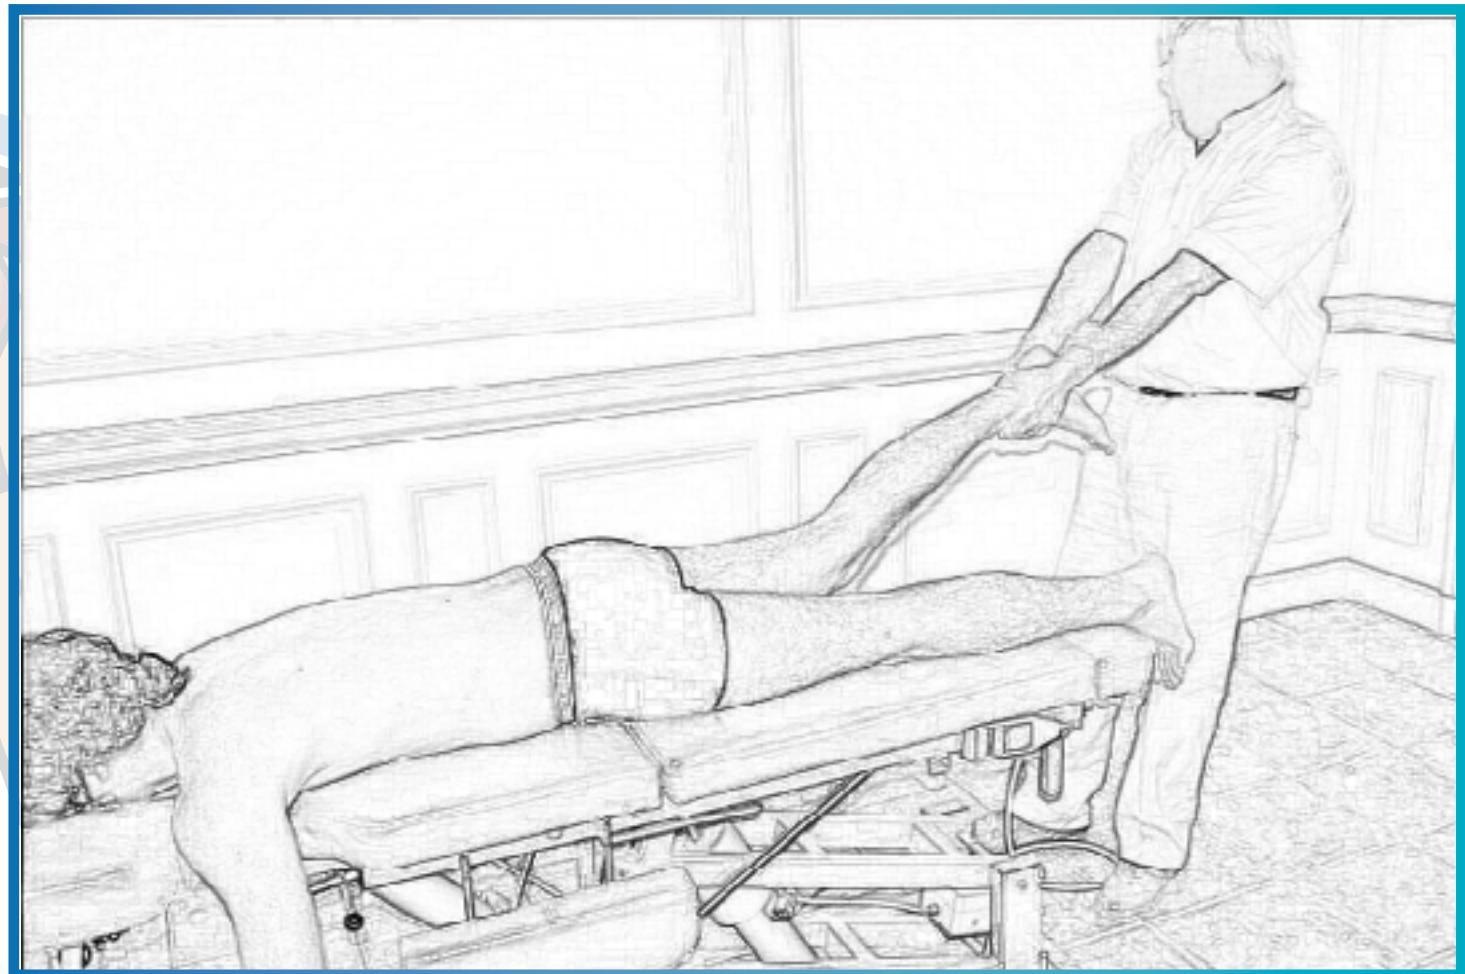

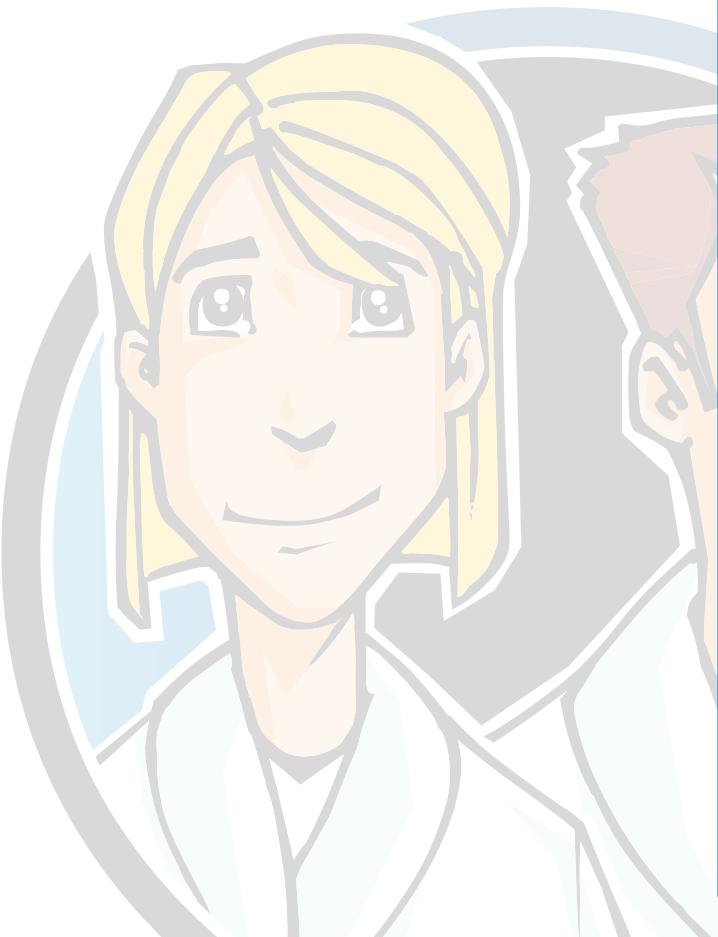

"Tout travail articulaire de la hanche
débutera par un pompage"

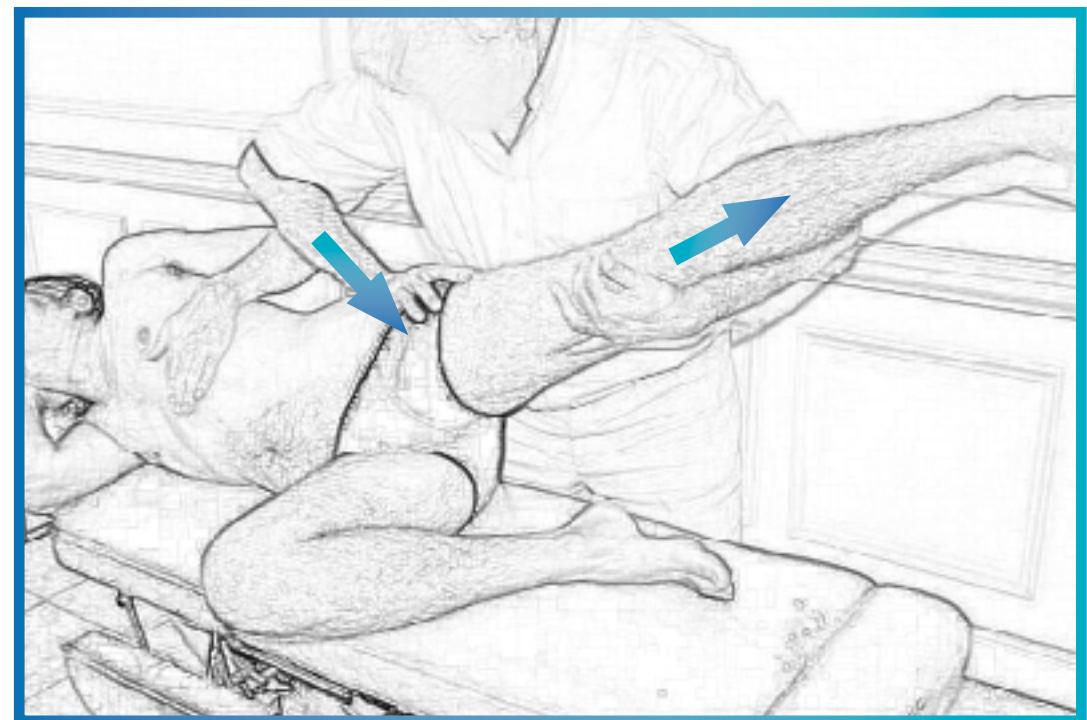

"Pompage de la hanche en décubitus ventral"

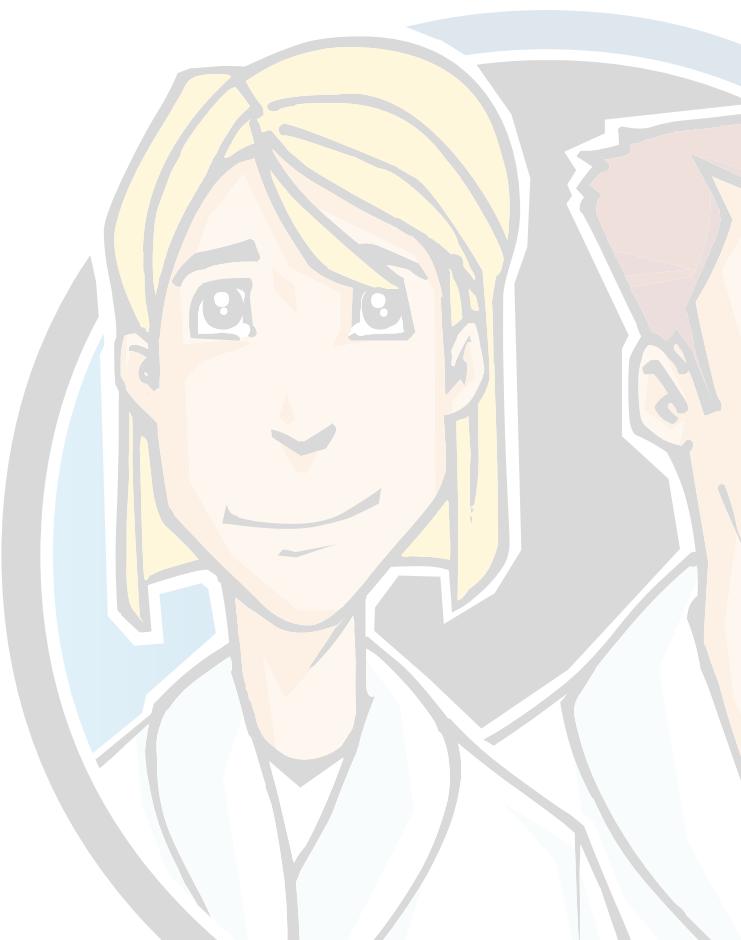

"Normalisation d'une lésion en adduction"

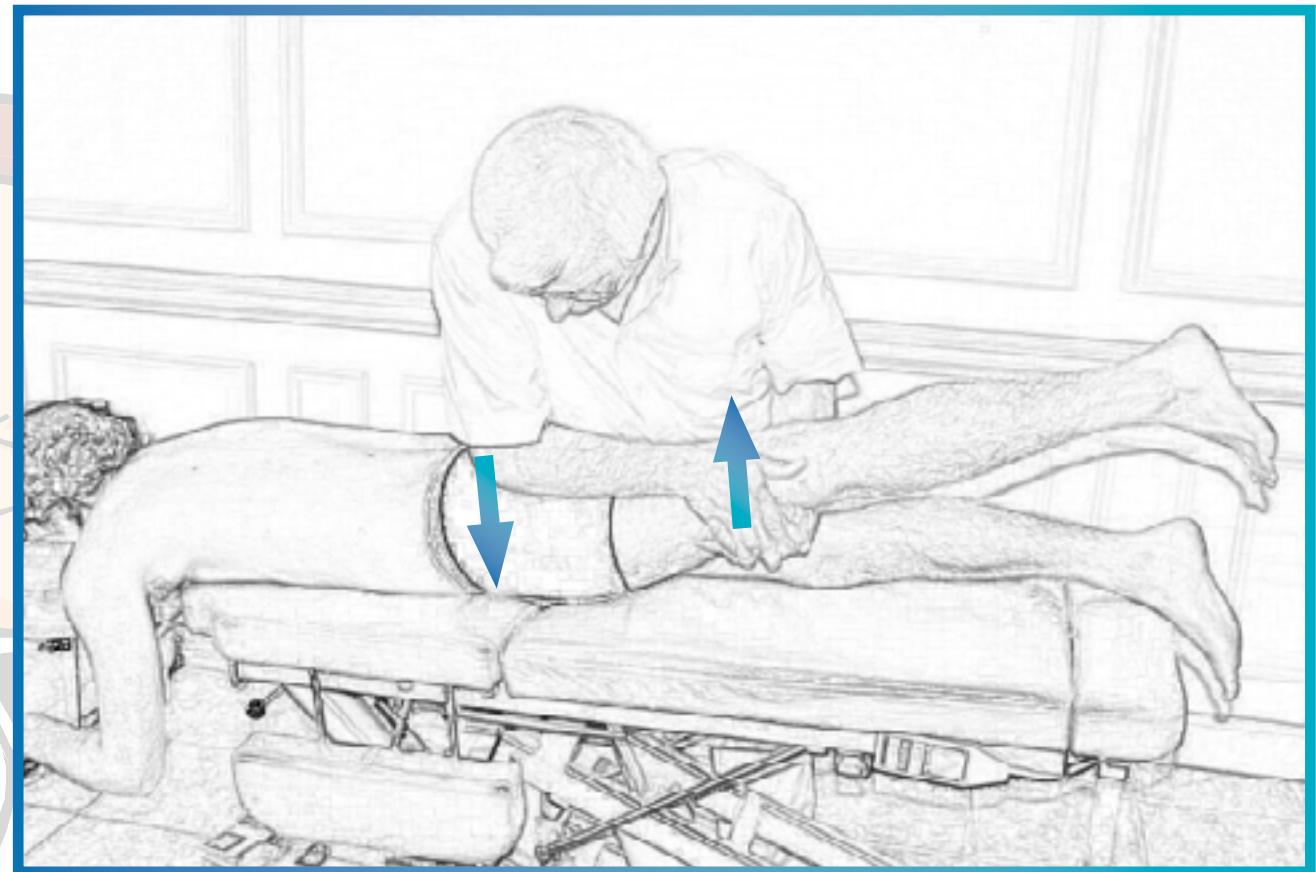

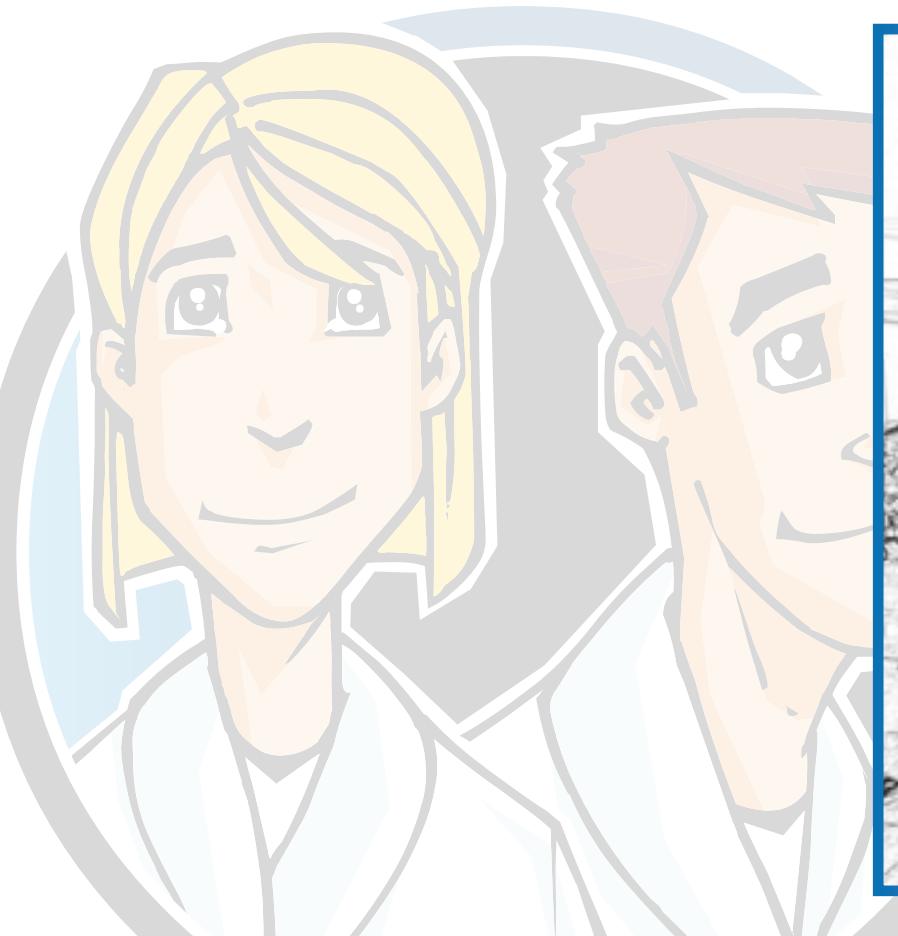

"Normalisation d'une lésion en abduction"

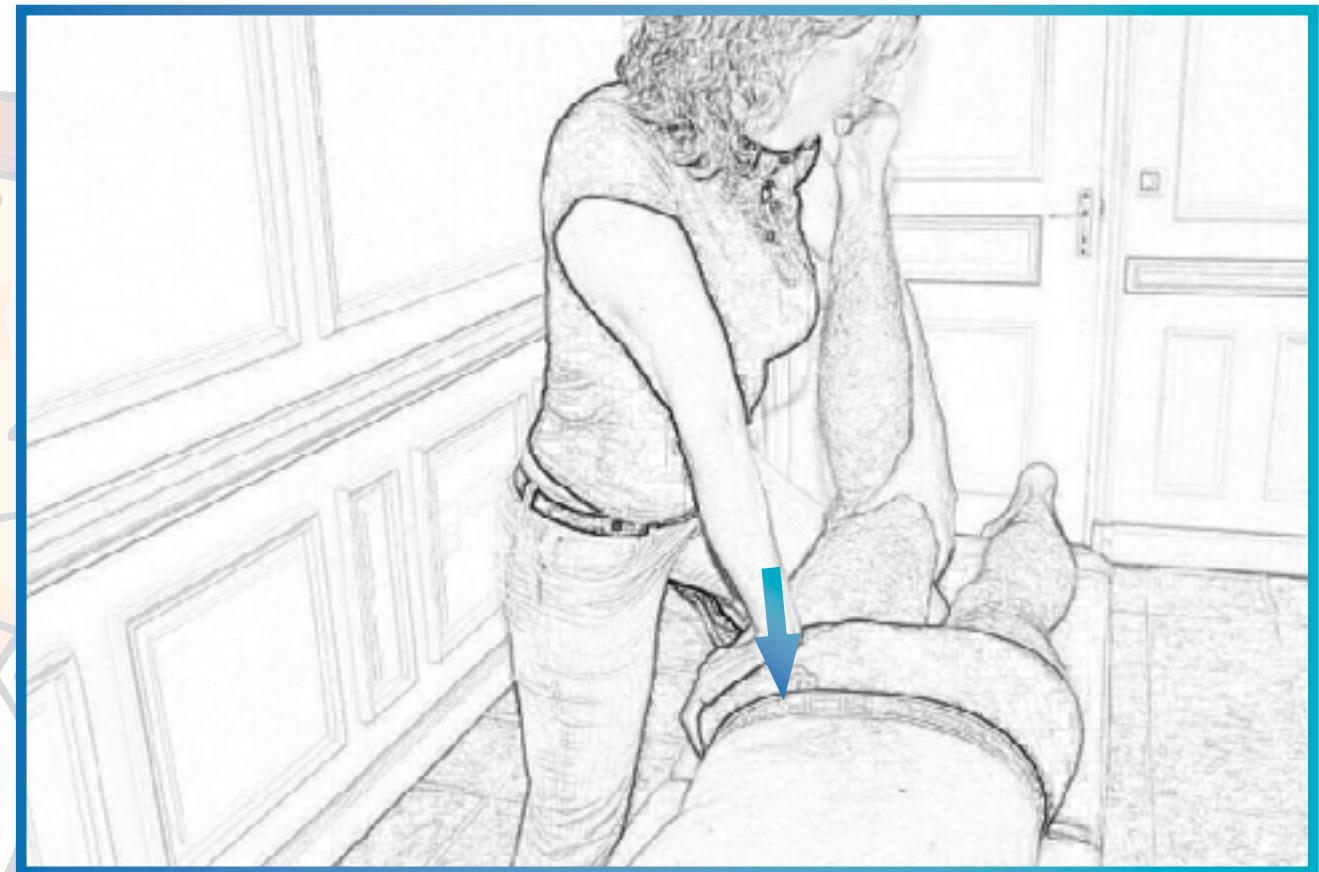

“Technique directe pour une lésion en flexion de la hanche”

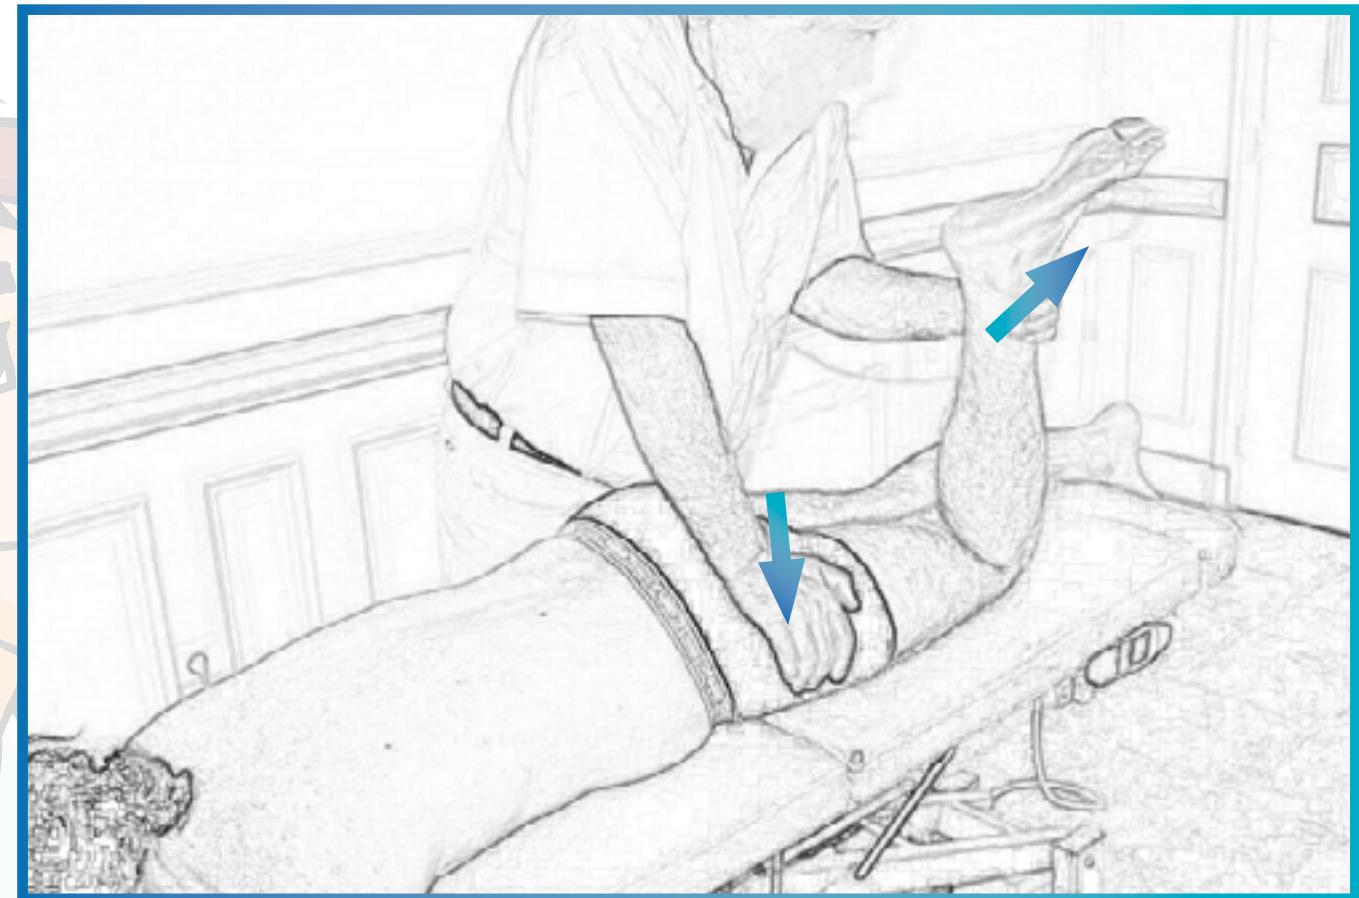

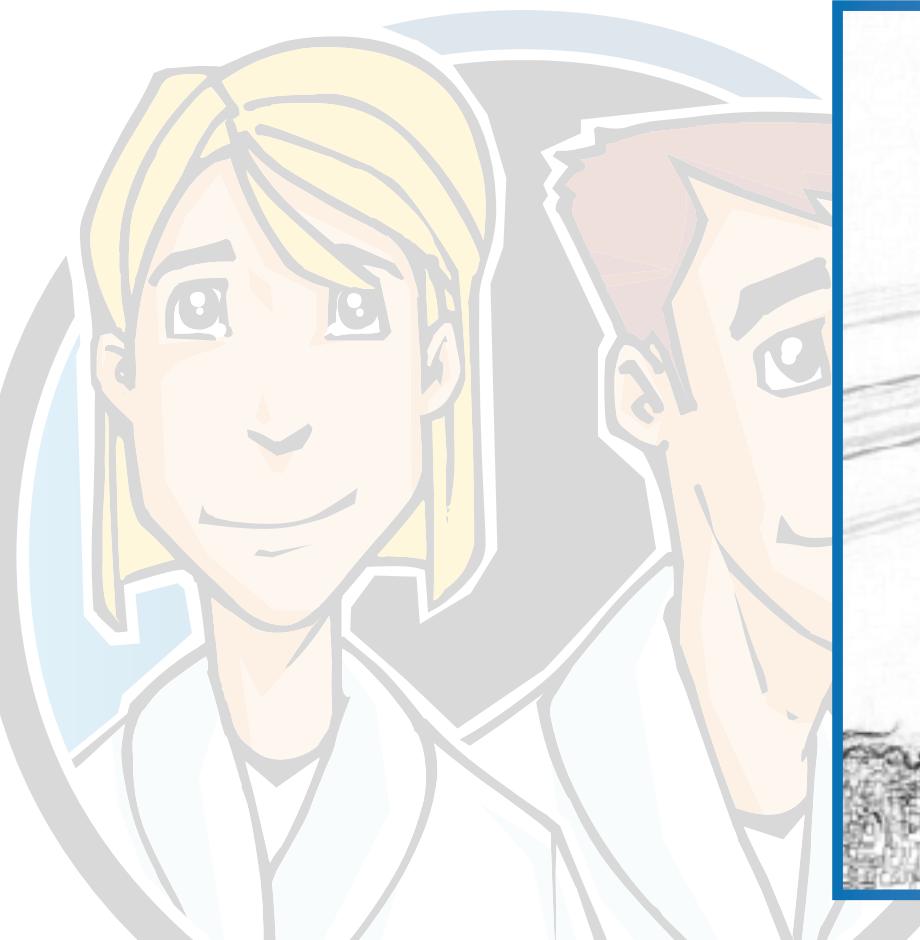

“Technique directe pour une lésion en flexion de la hanche” (variante)

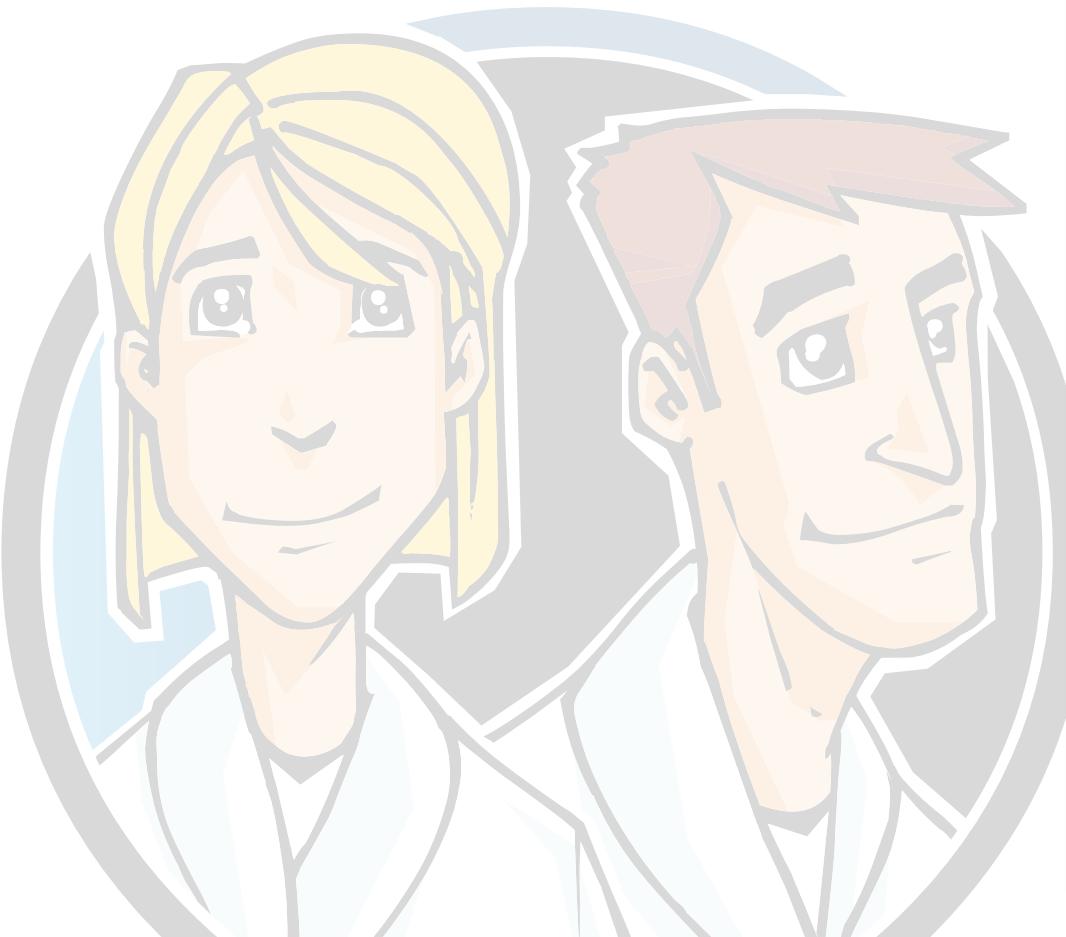

"Technique directe pour une lésion en rotation externe de la hanche"

"Correction d'une lésion en rotation externe droite 1 "

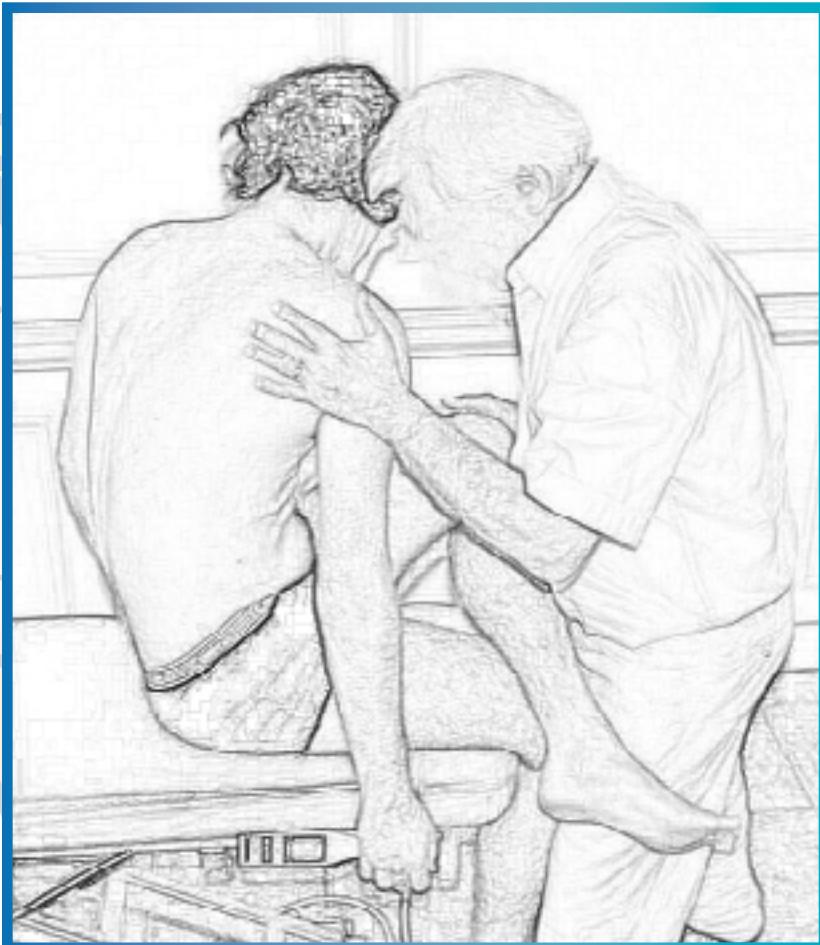

"Correction d'une lésion en rotation externe droite 2 "

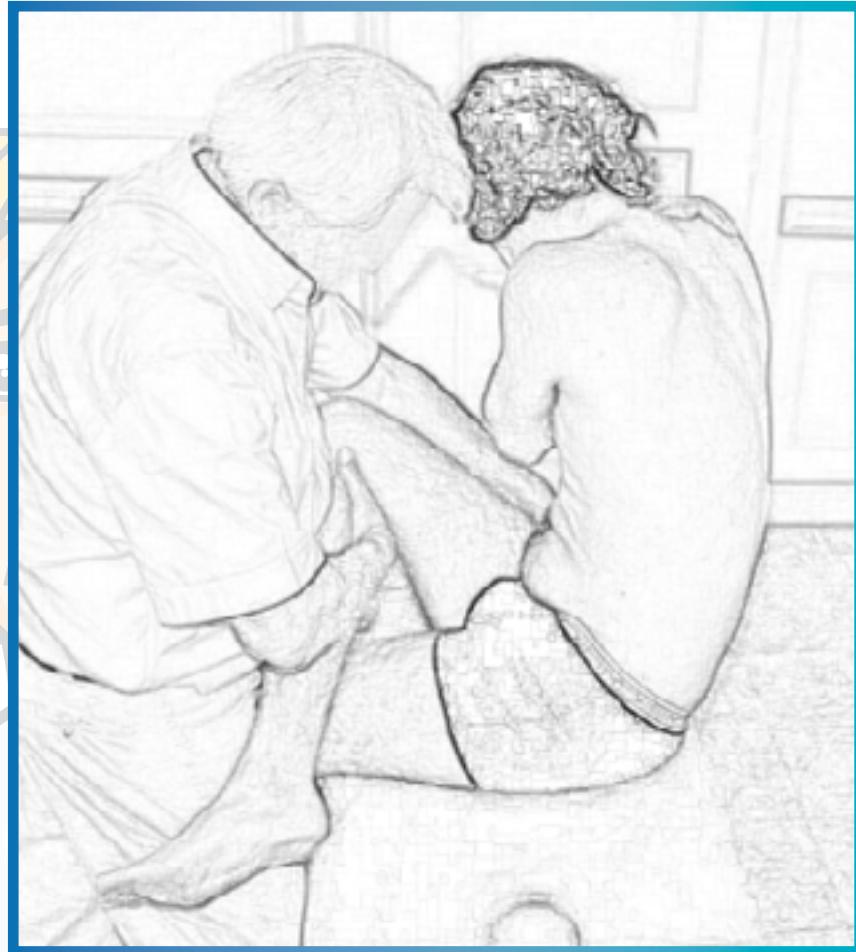

"Correction d'une lésion en rotation externe droite 3 "

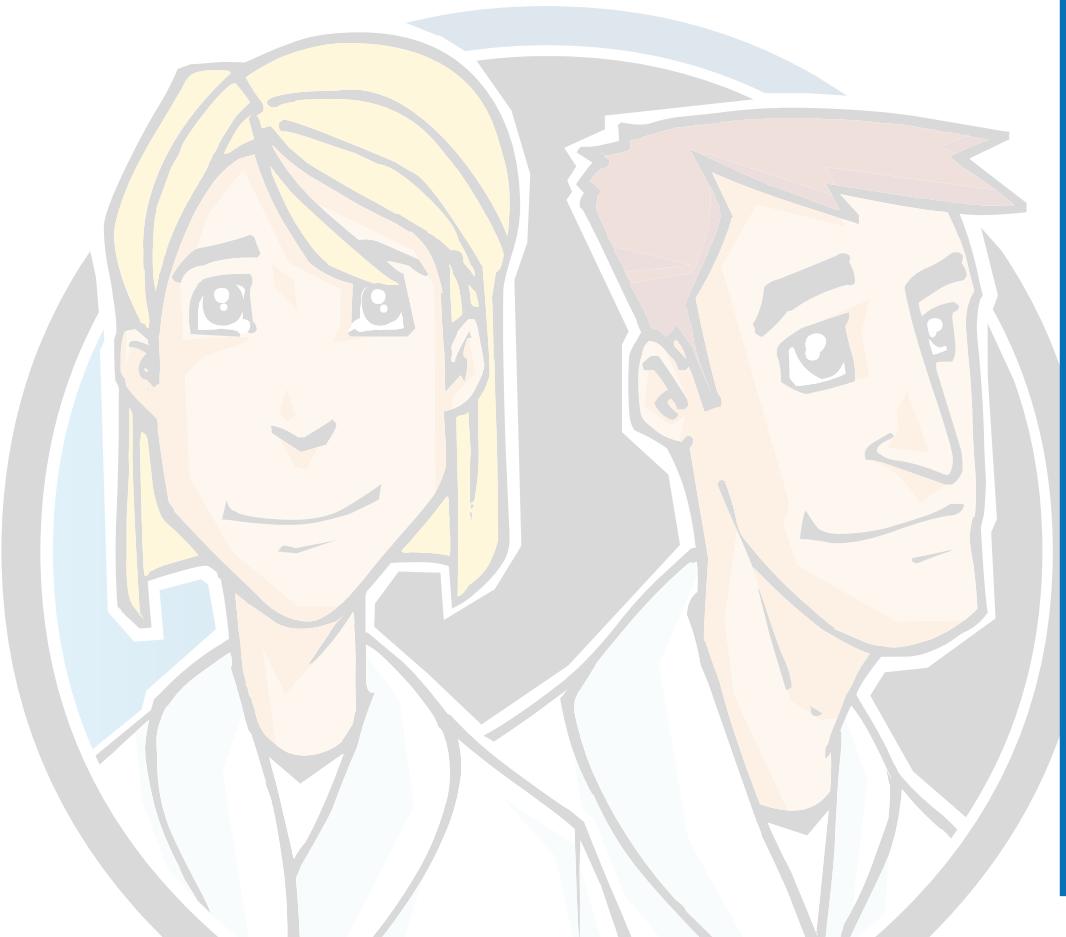

"Correction d'une lésion en rotation interne droite 1 "

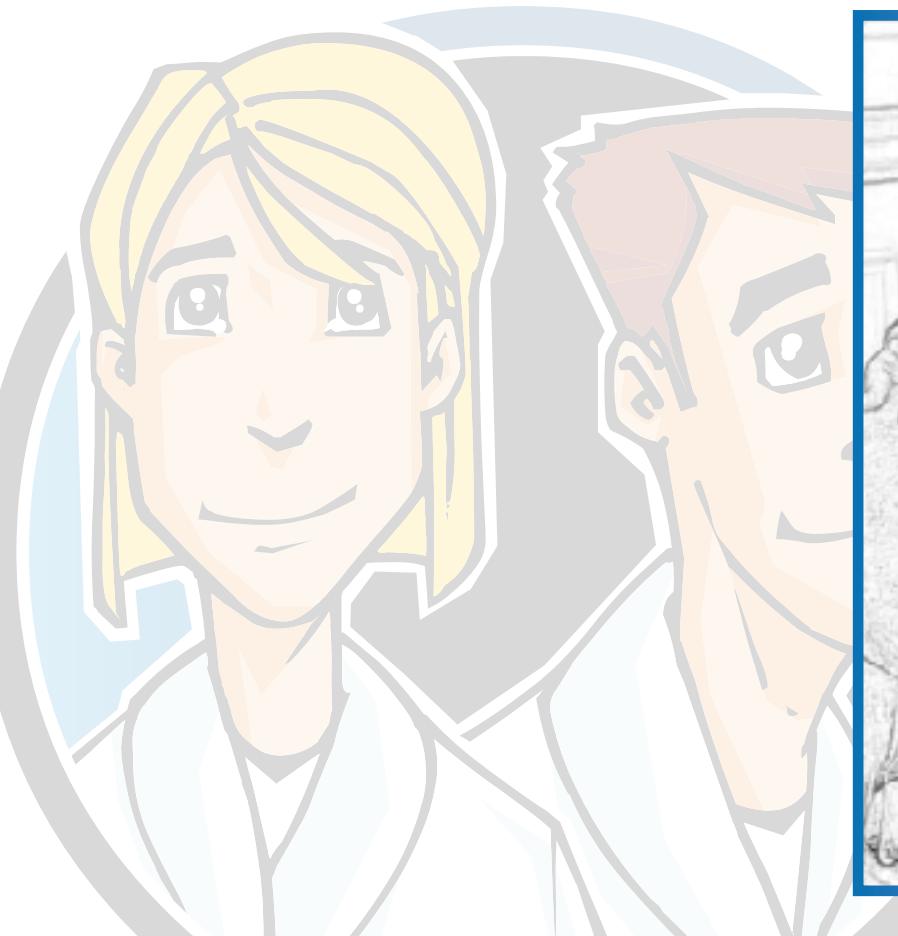

"Correction d'une lésion en rotation interne droite 2 "

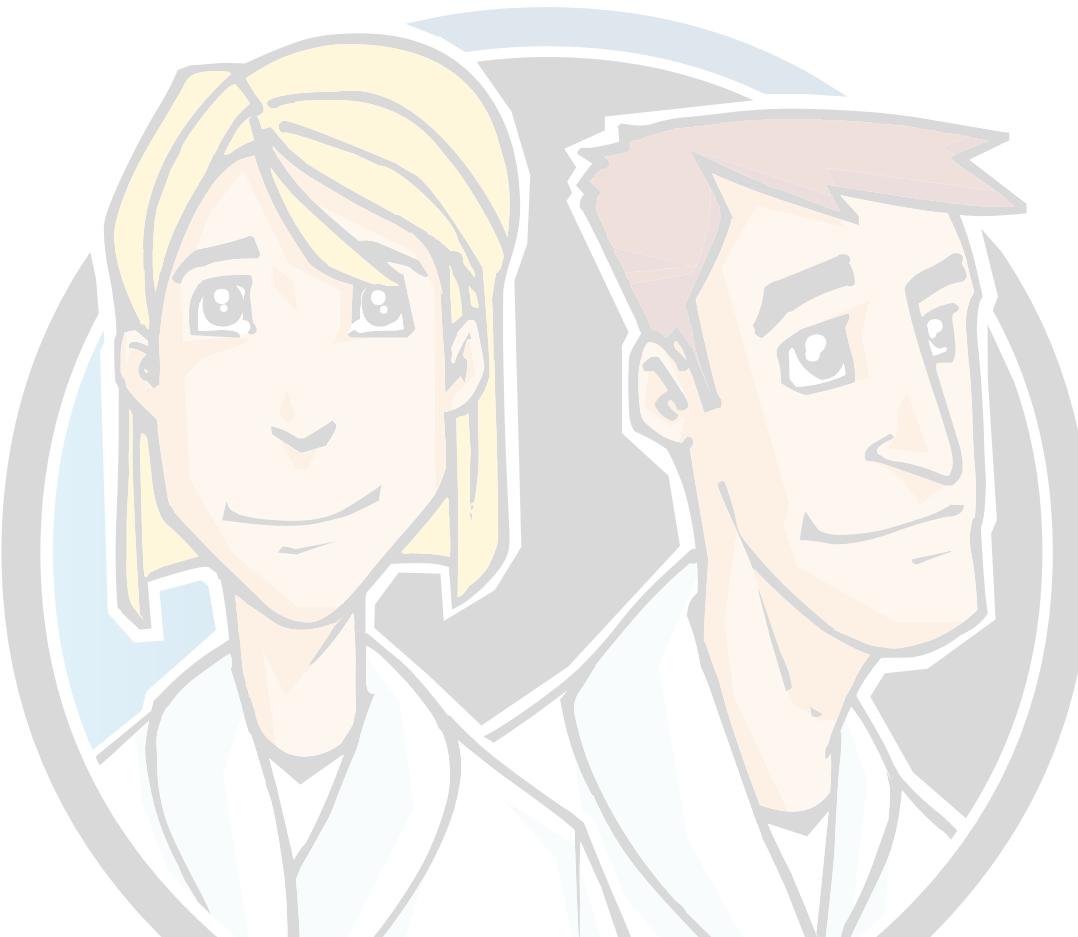

"Le travail de la hanche se terminera par une équilibration tissulaire "

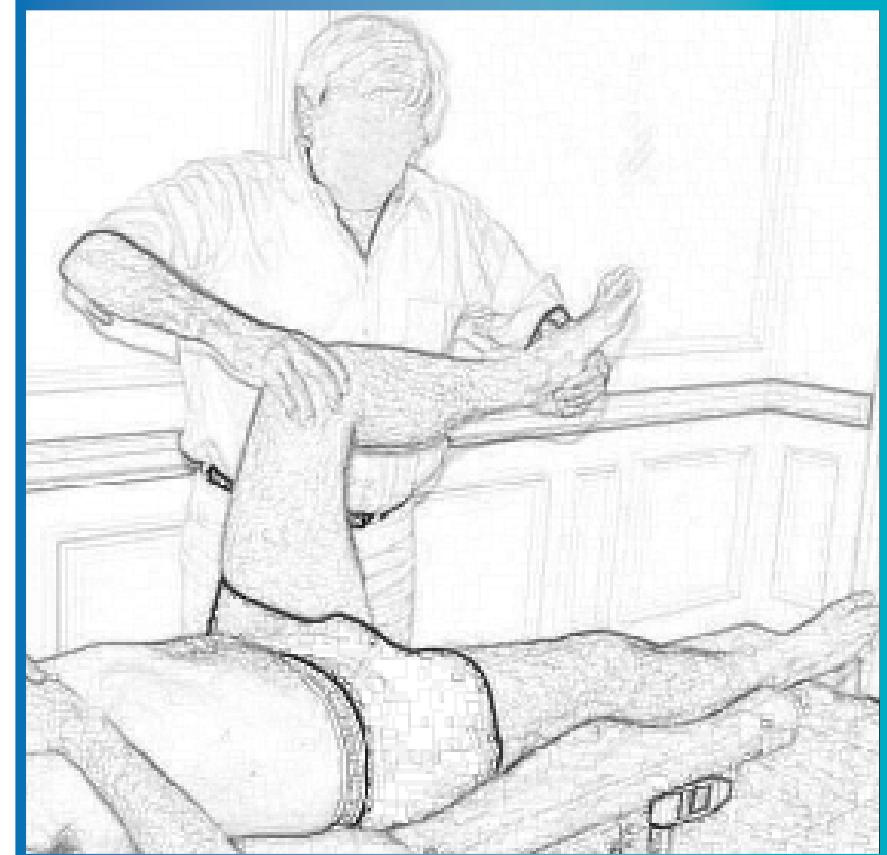

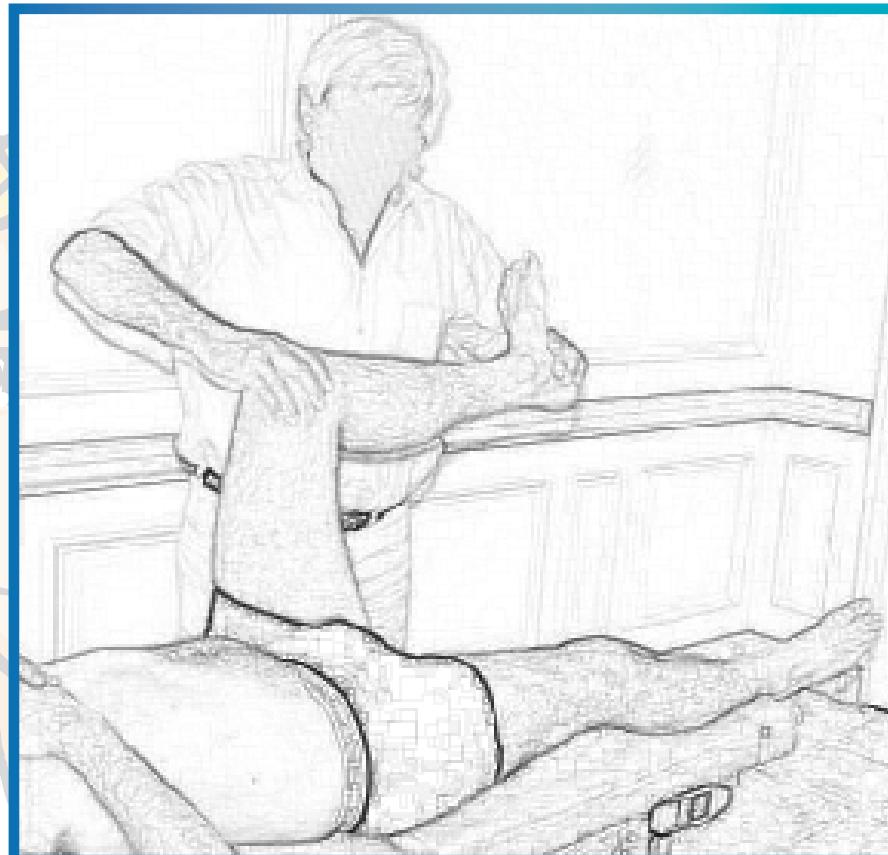

"Tester les mouvements antéro -postérieurs puis l'addo - abduction "

Rotaciones de tibia bajo el fémur

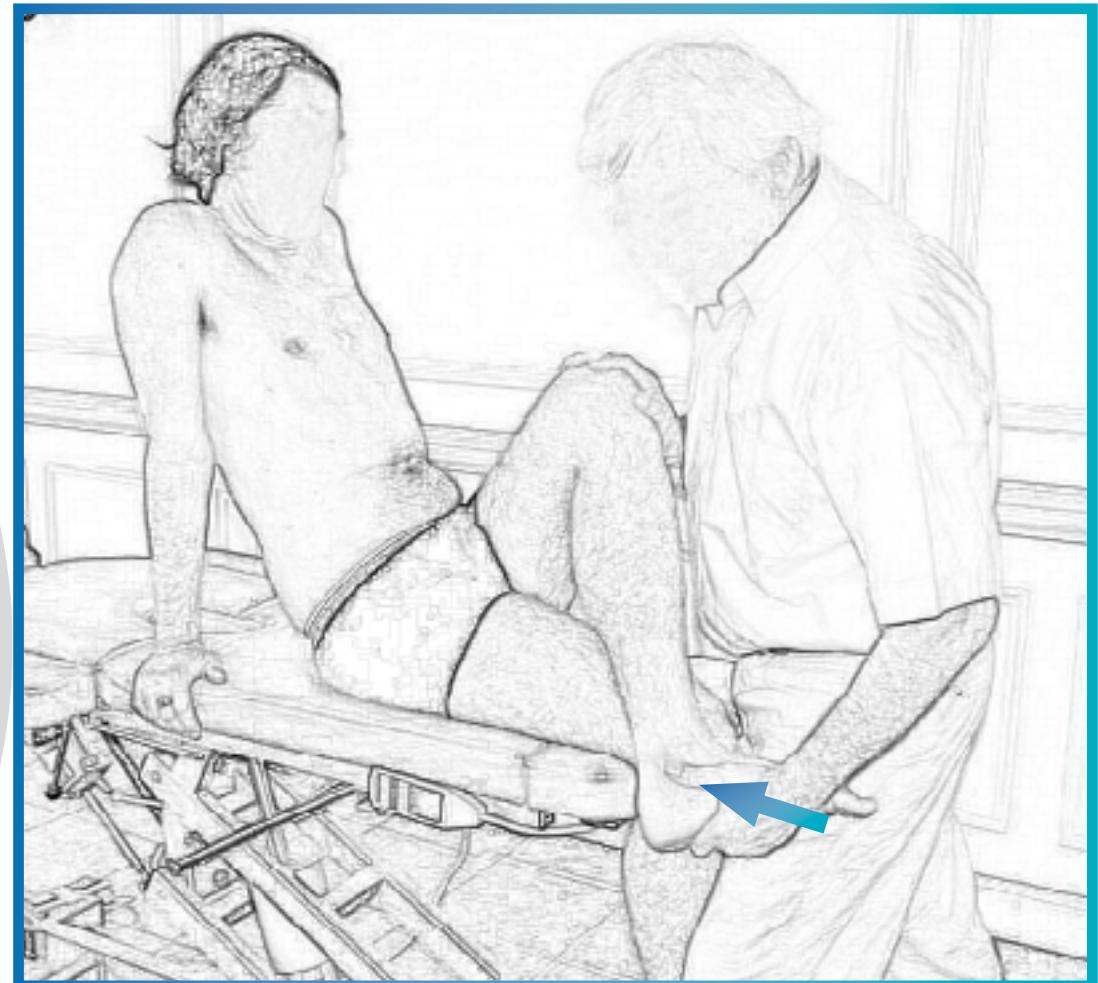

“Pouce et index sur l’interligne articulaire”

“Lésion en rotation externe du tibia sous le fémur”

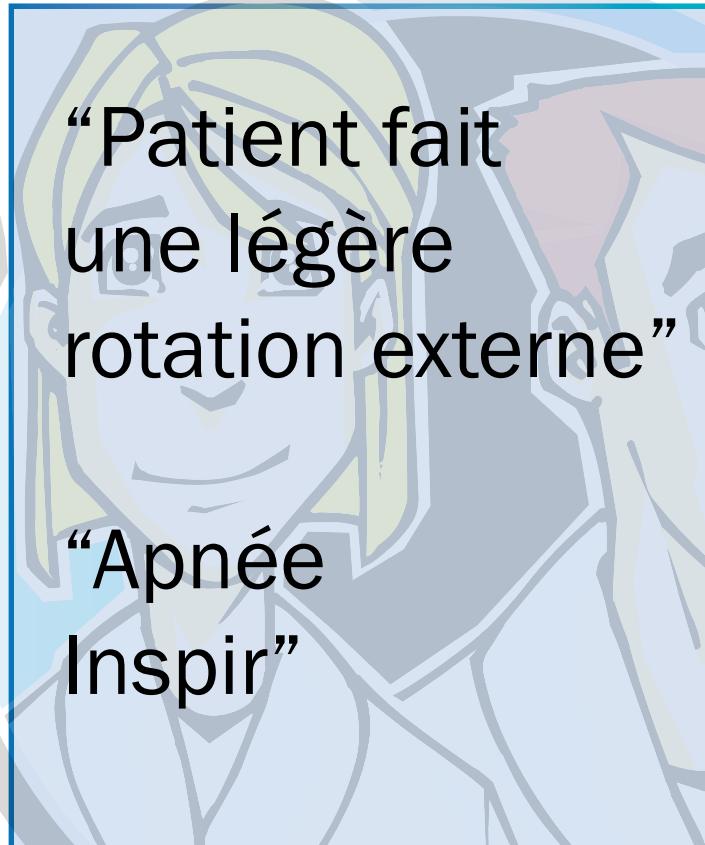

“Patient fait une légère rotation interne”

“Apnée Expir”

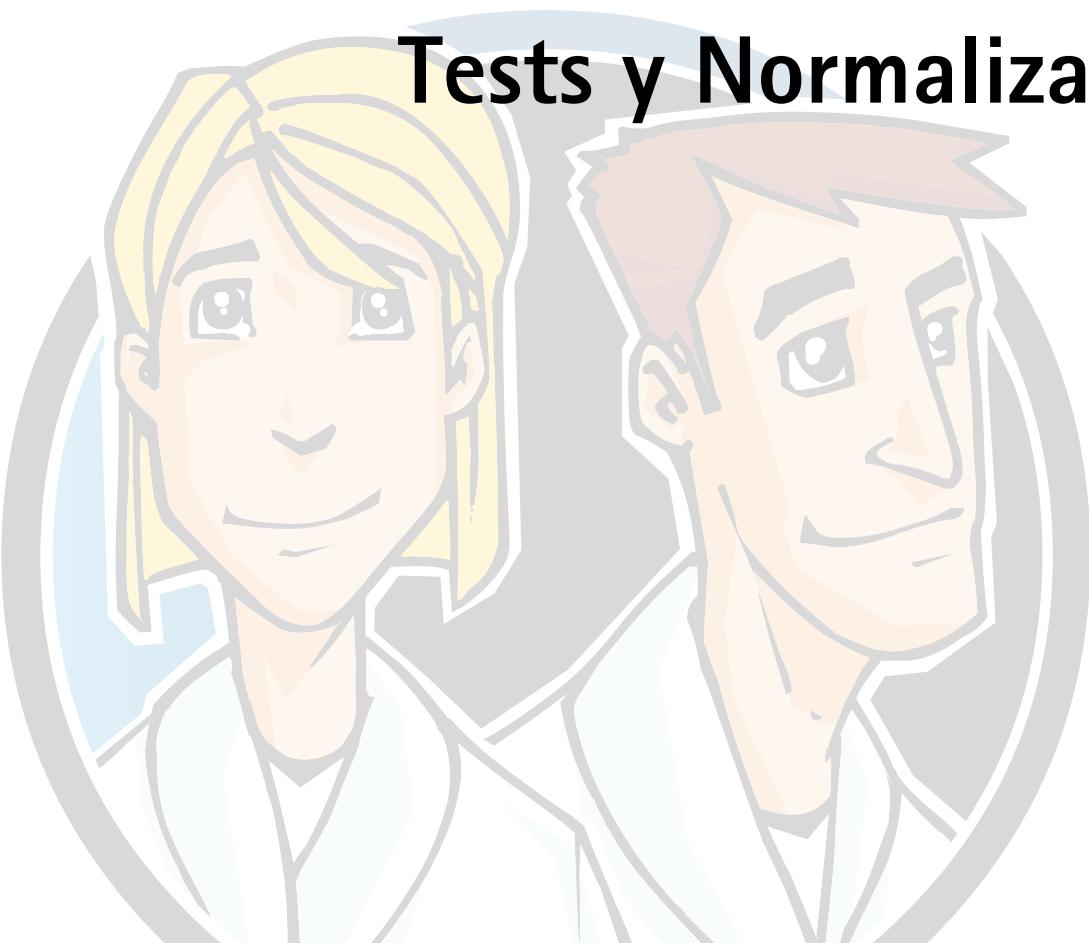

“Lésion en rotation interne du tibia sous le fémur”

"Les entorses du genou"

Tests y Normalizaciones en micromovilidades

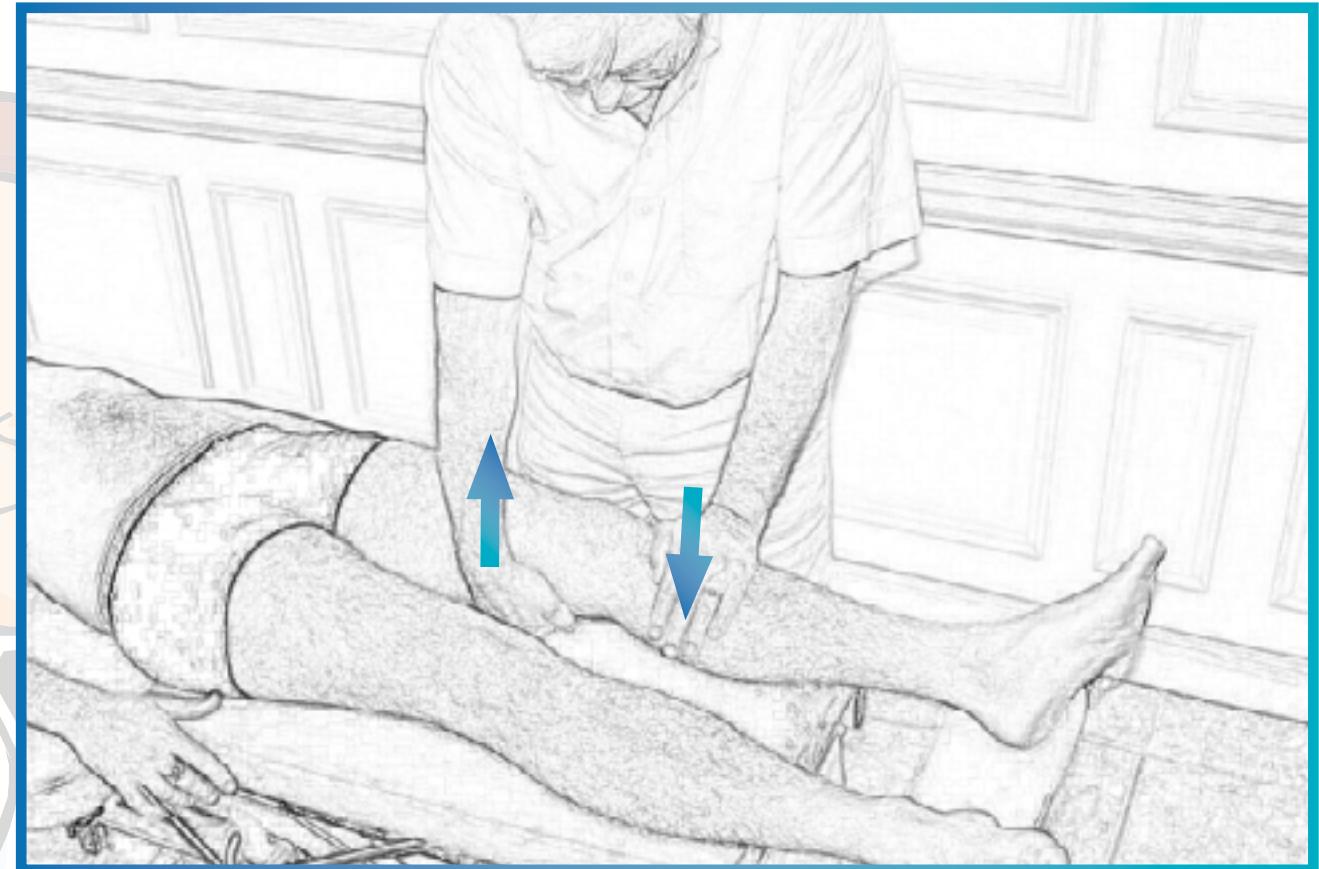

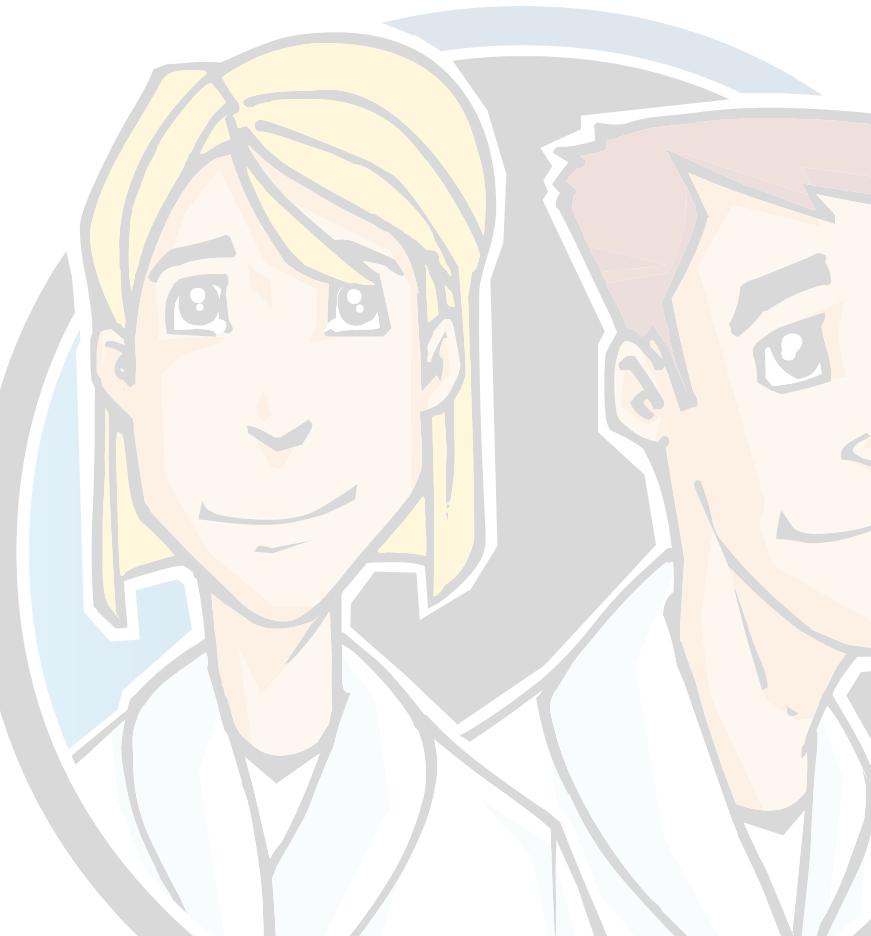

Servicio de rehabilitación

Las cadenas articulares

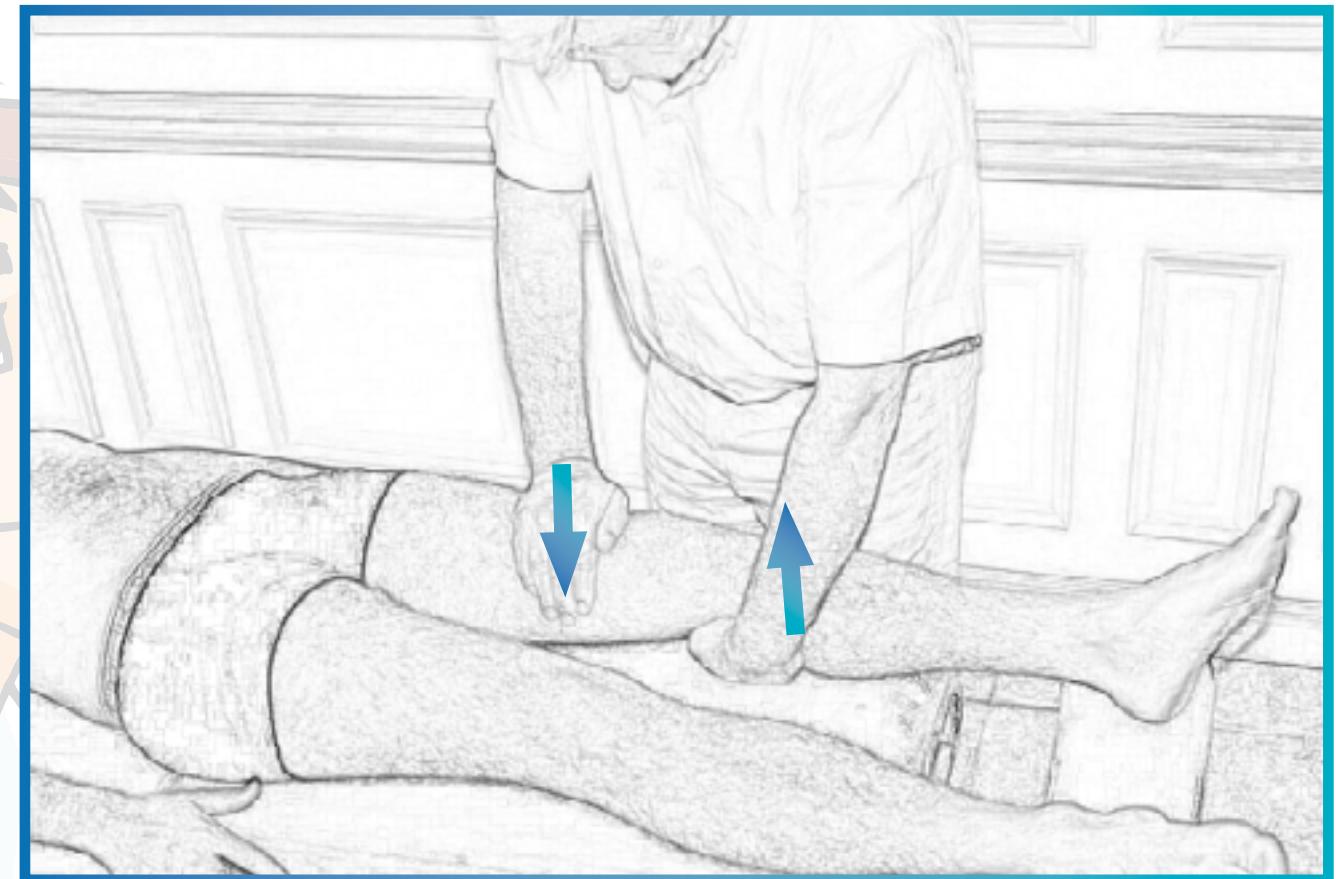

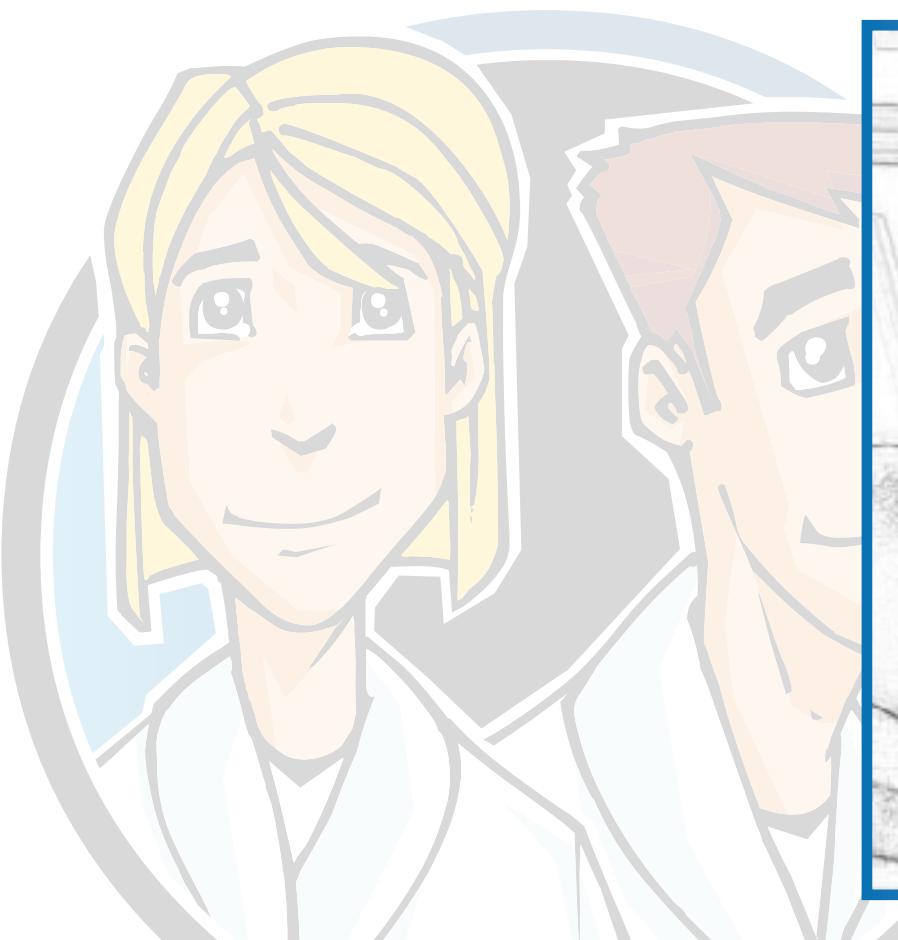

"Test et correction antériorité du fémur, postériorité du tibia"

"Test et correction postériorité du fémur, antériorité du tibia"

"Test et correction des rotations"

"Les mini mobilisations du genou"

Antéro-post

Latéralité Rotation

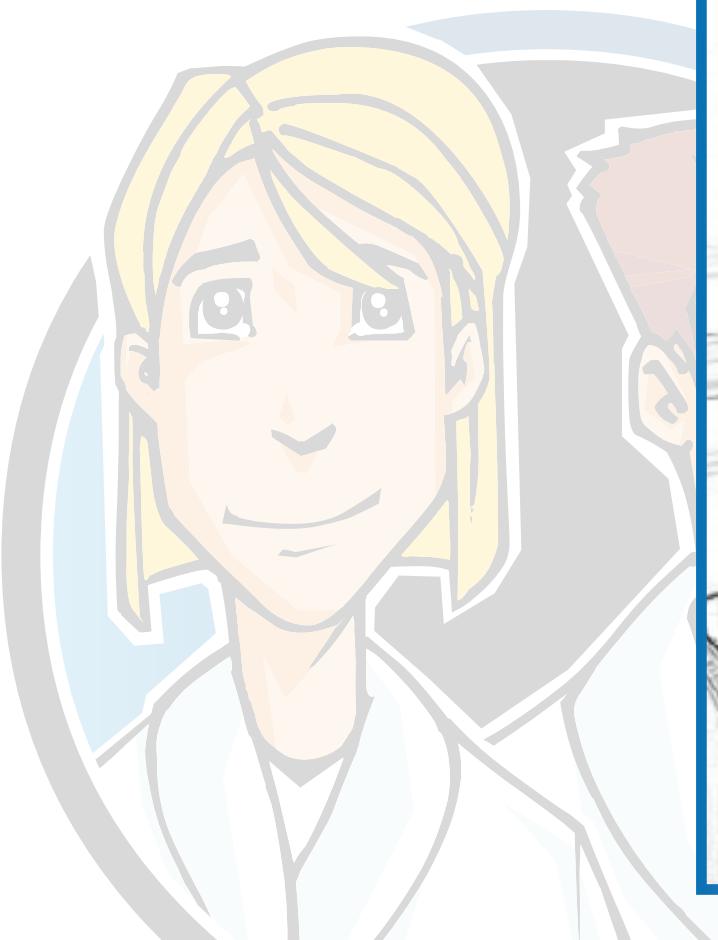

"Recherche des lésions méniscales 1" Test de Mac Murray

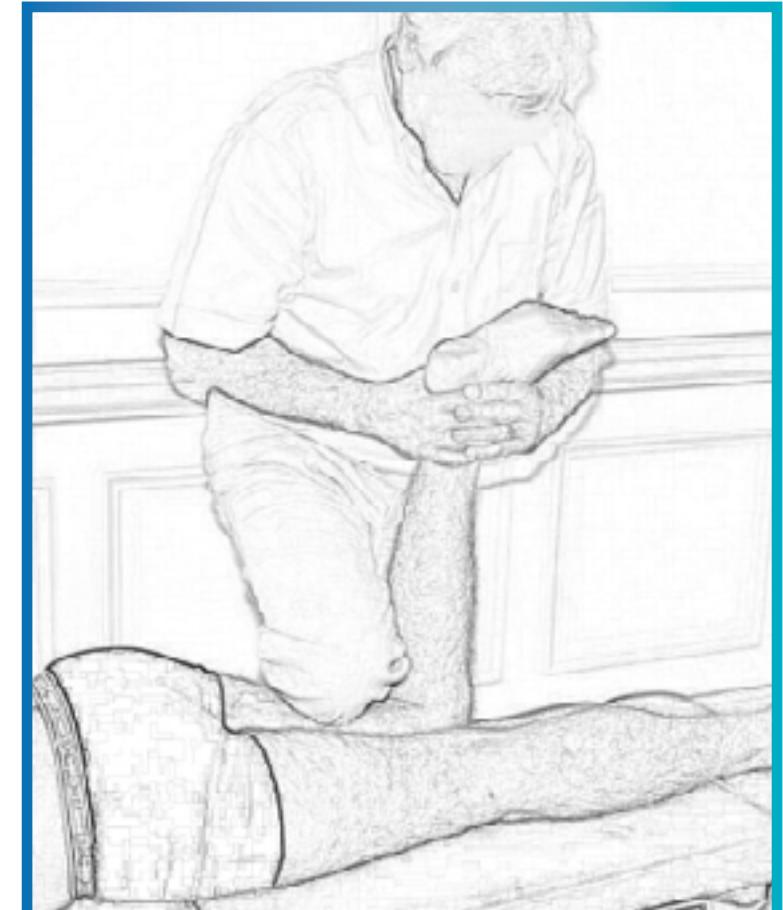

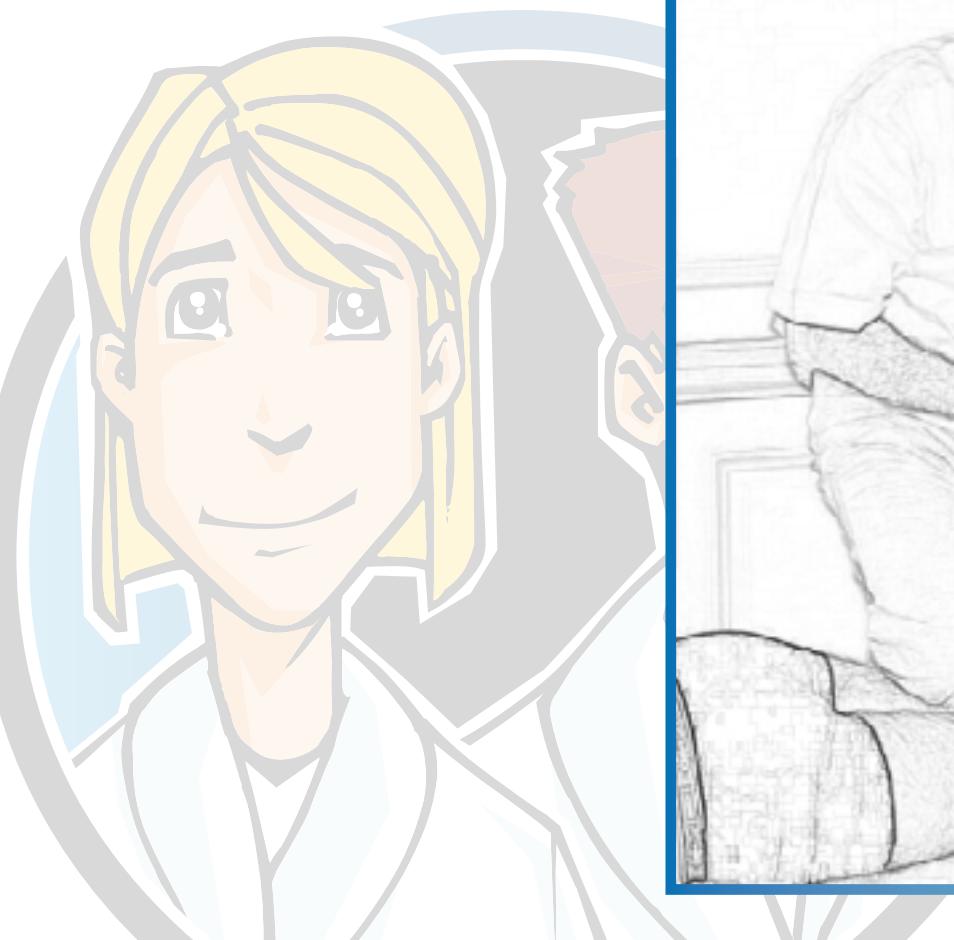

"Recherche des lésions méniscales 2" "Grinding test"

LA RODILLA

Test global

Servicio de rehabilitación

Las cadenas articulares

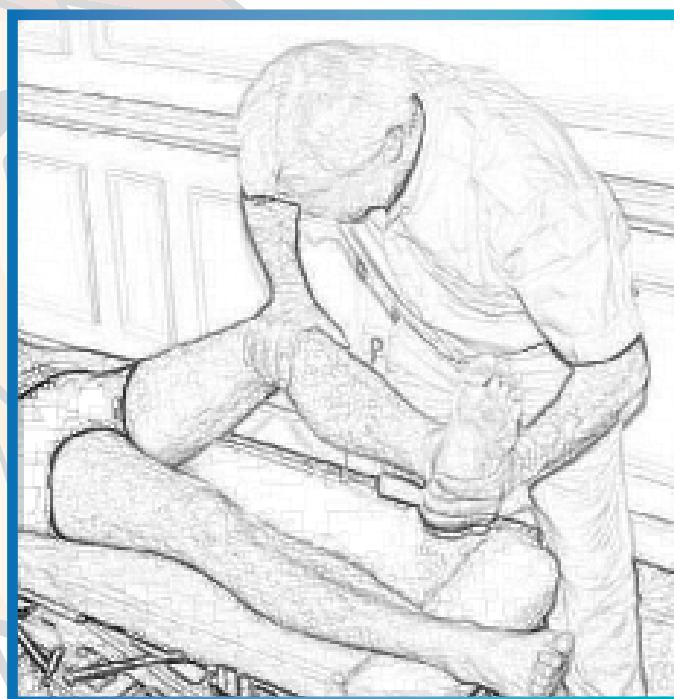

71

"Normalisation d'une lésion de la corne antérieure du ménisque interne"

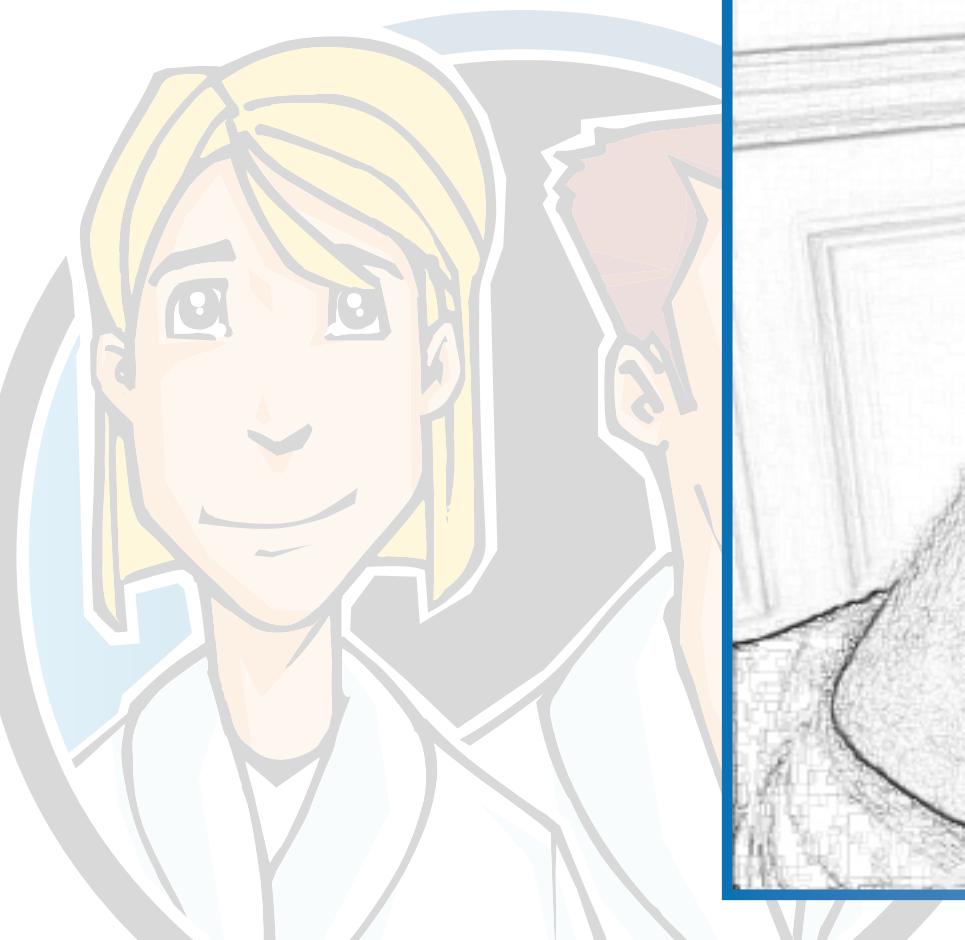

"Normalisation d'une lésion de la corne antérieure du ménisque externe"

"Test de la tête du péroné"

Servicio de rehabilitación

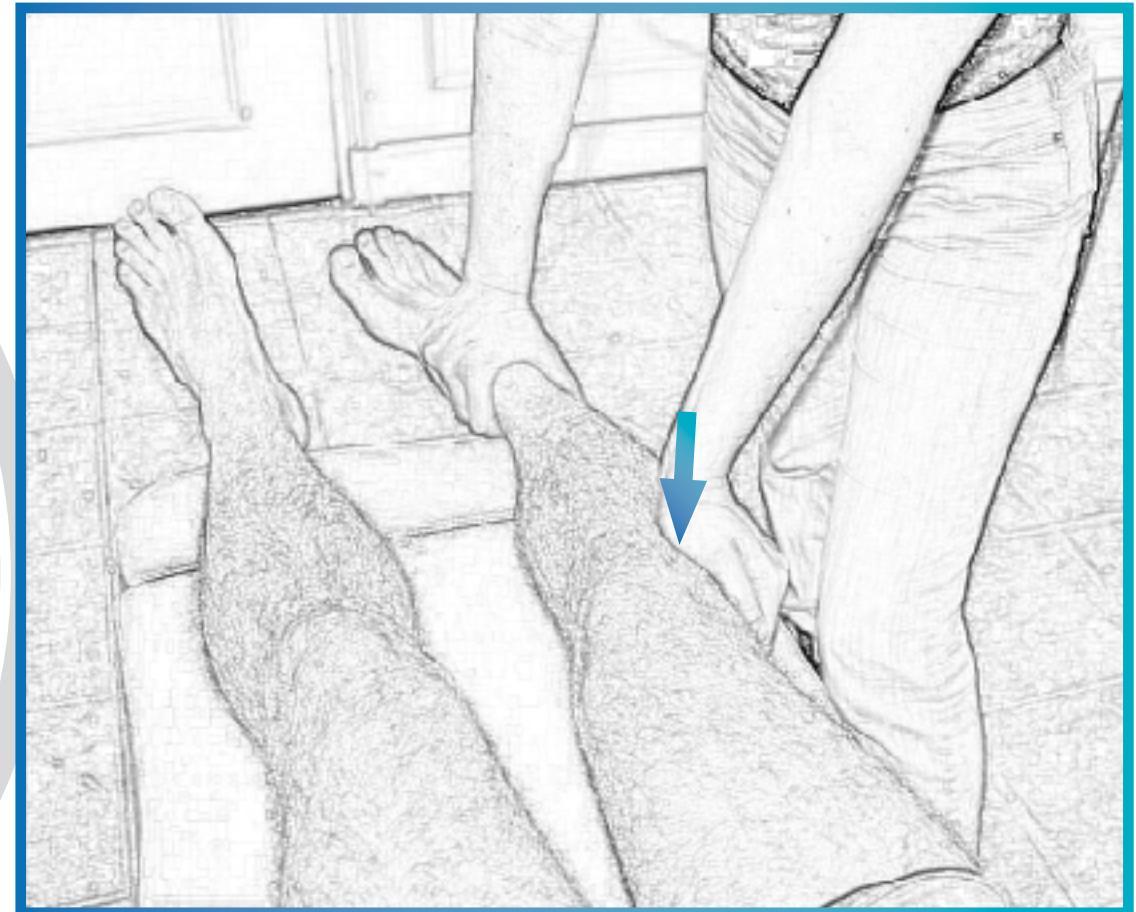

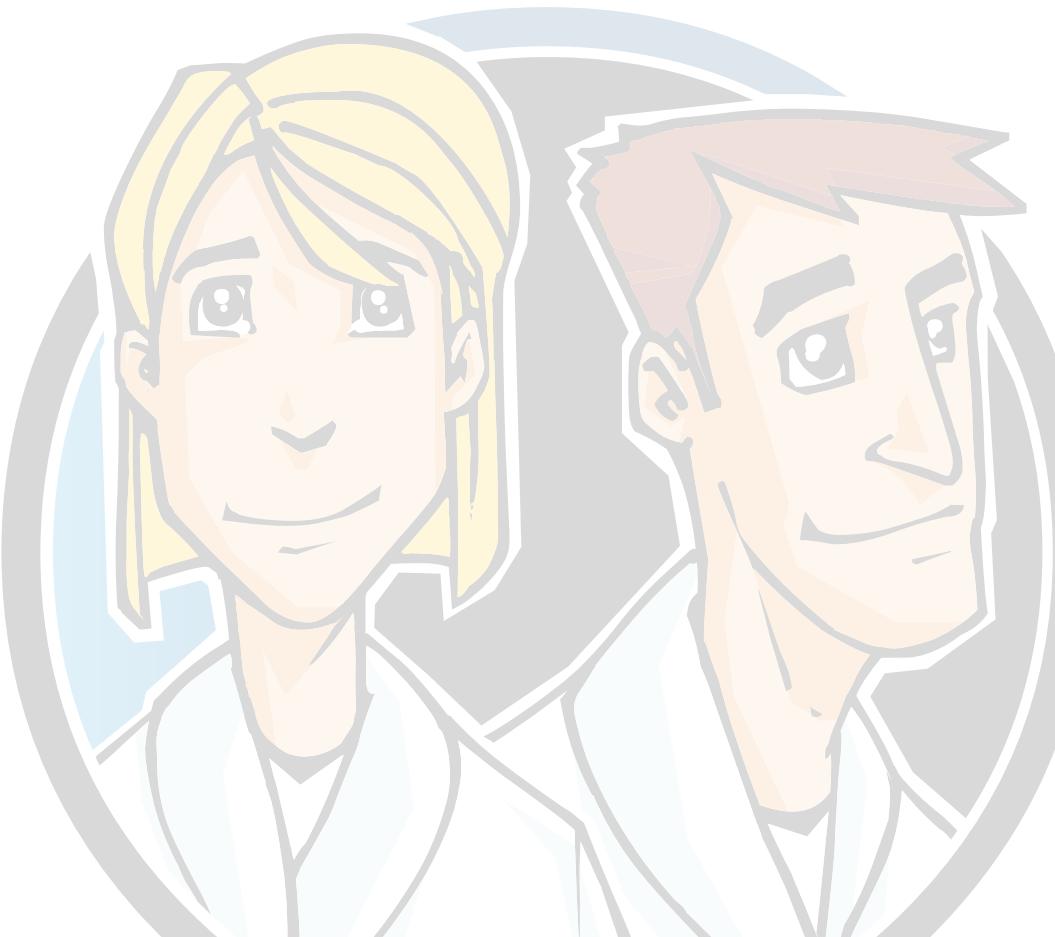

Las cadenas articulares

80

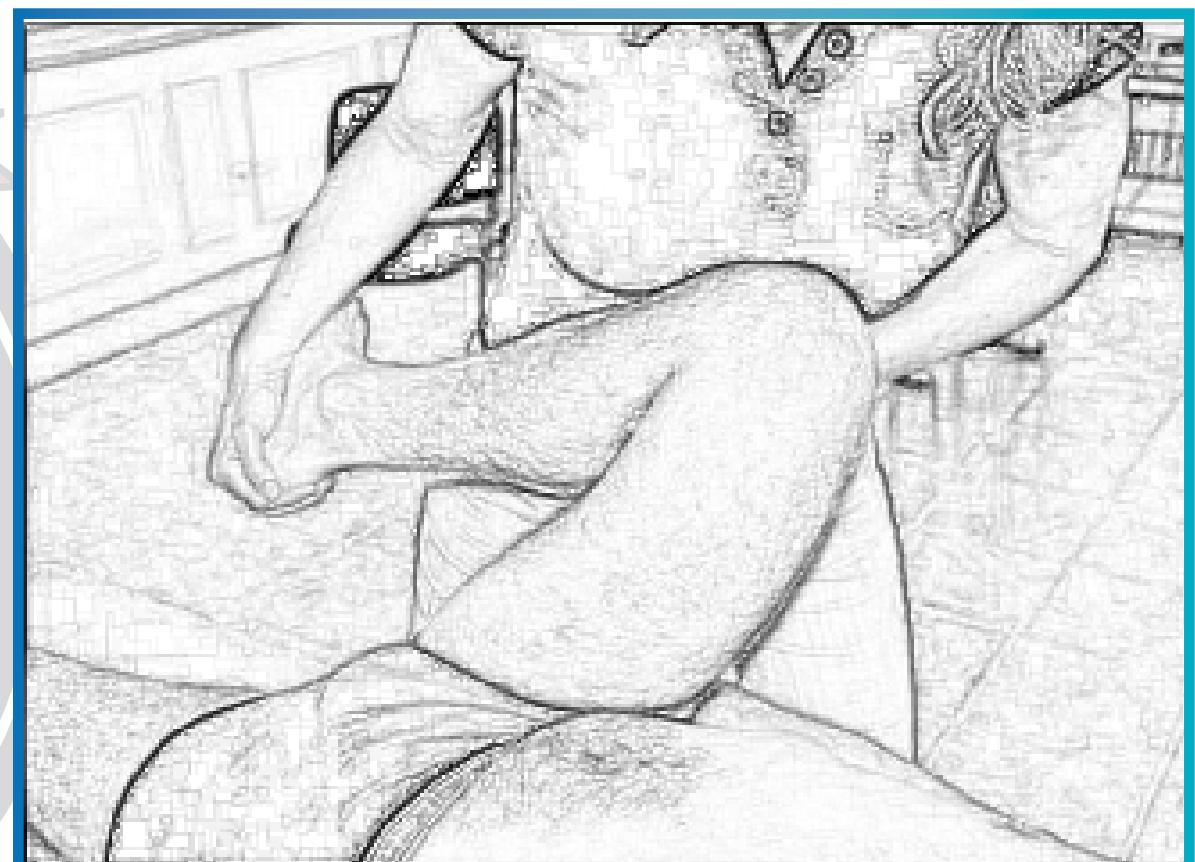

“Normalisation structurelle”

“Normalisation structurelle de latête du péroné antérieure”

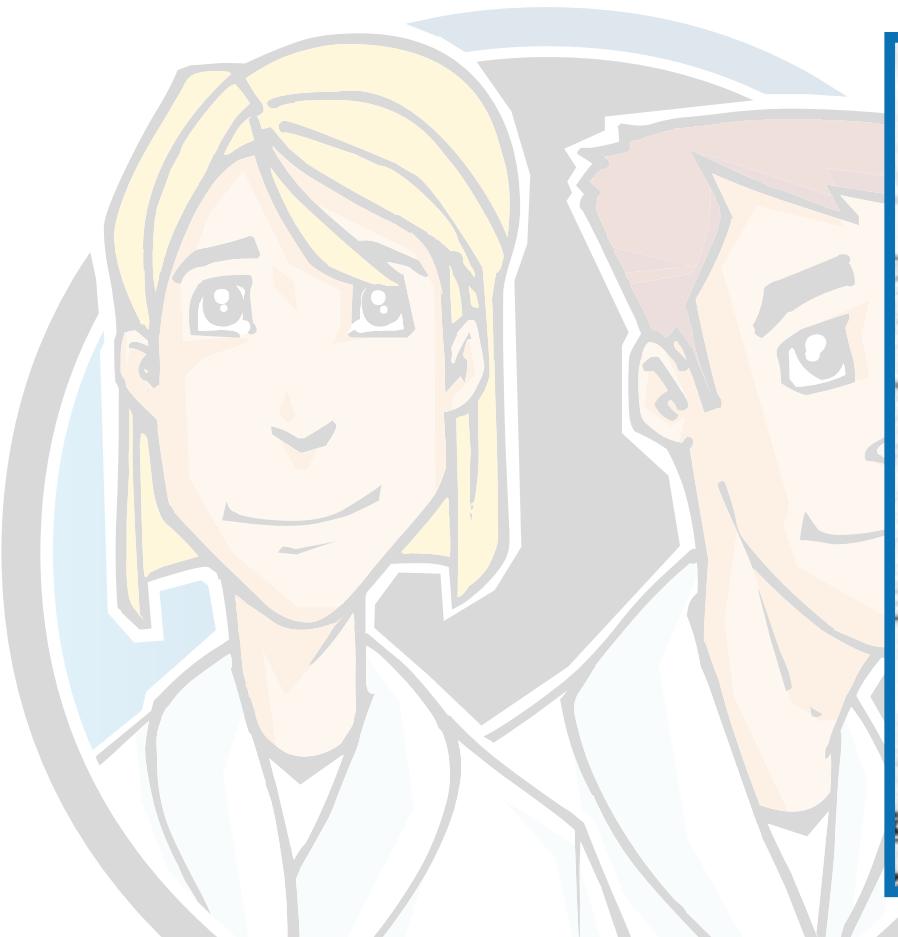

"Normalisation structurelle de la-tête du péroné postérieure"

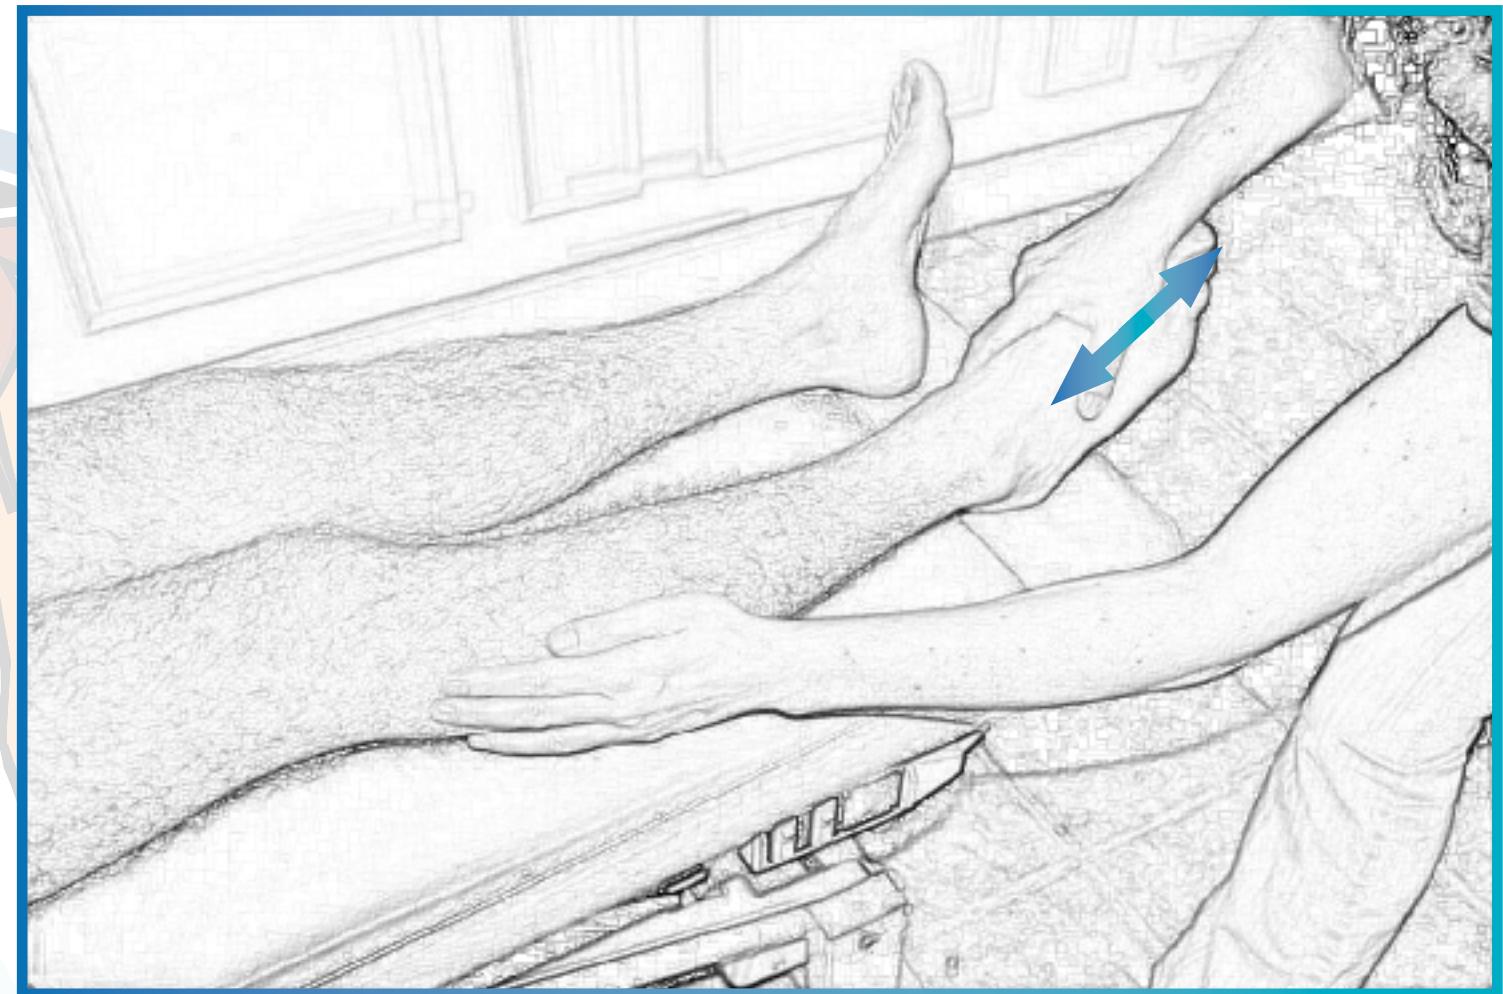

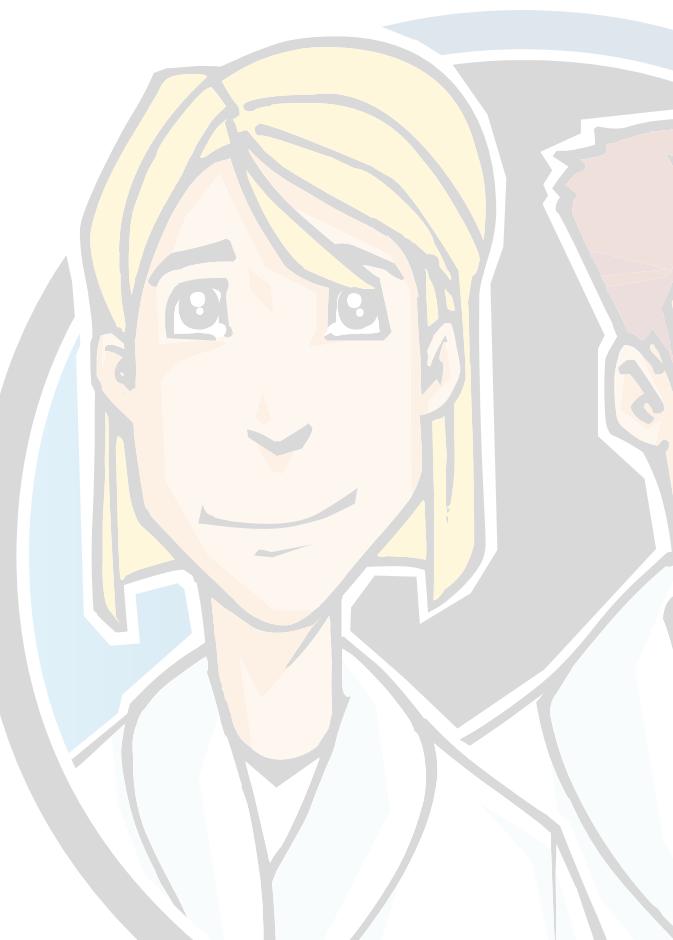

"Normalisation structurelle de latête du péroné postérieure" (variante)

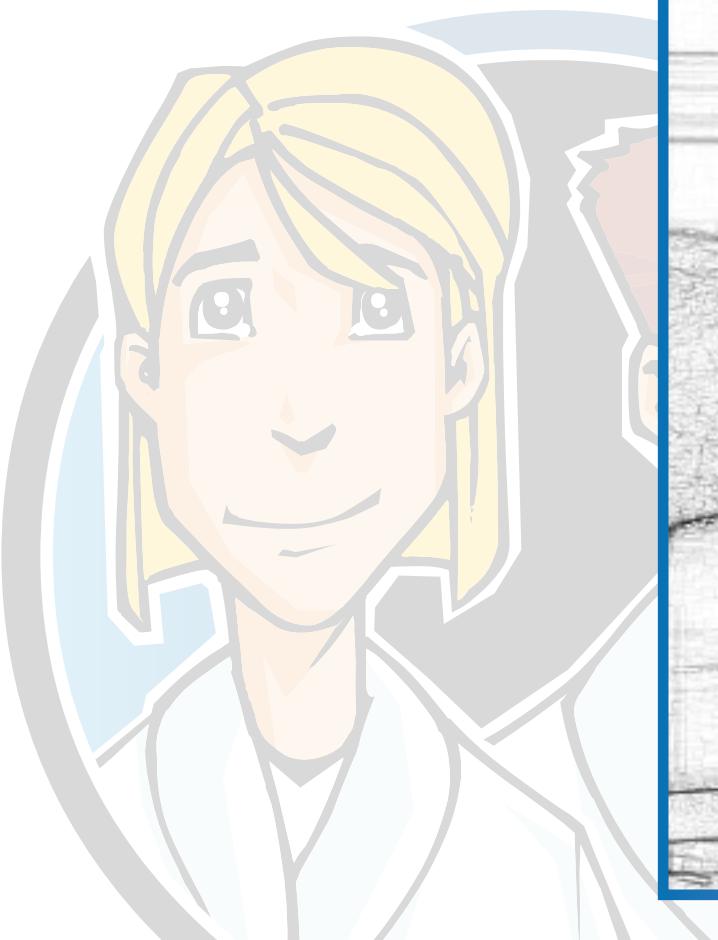

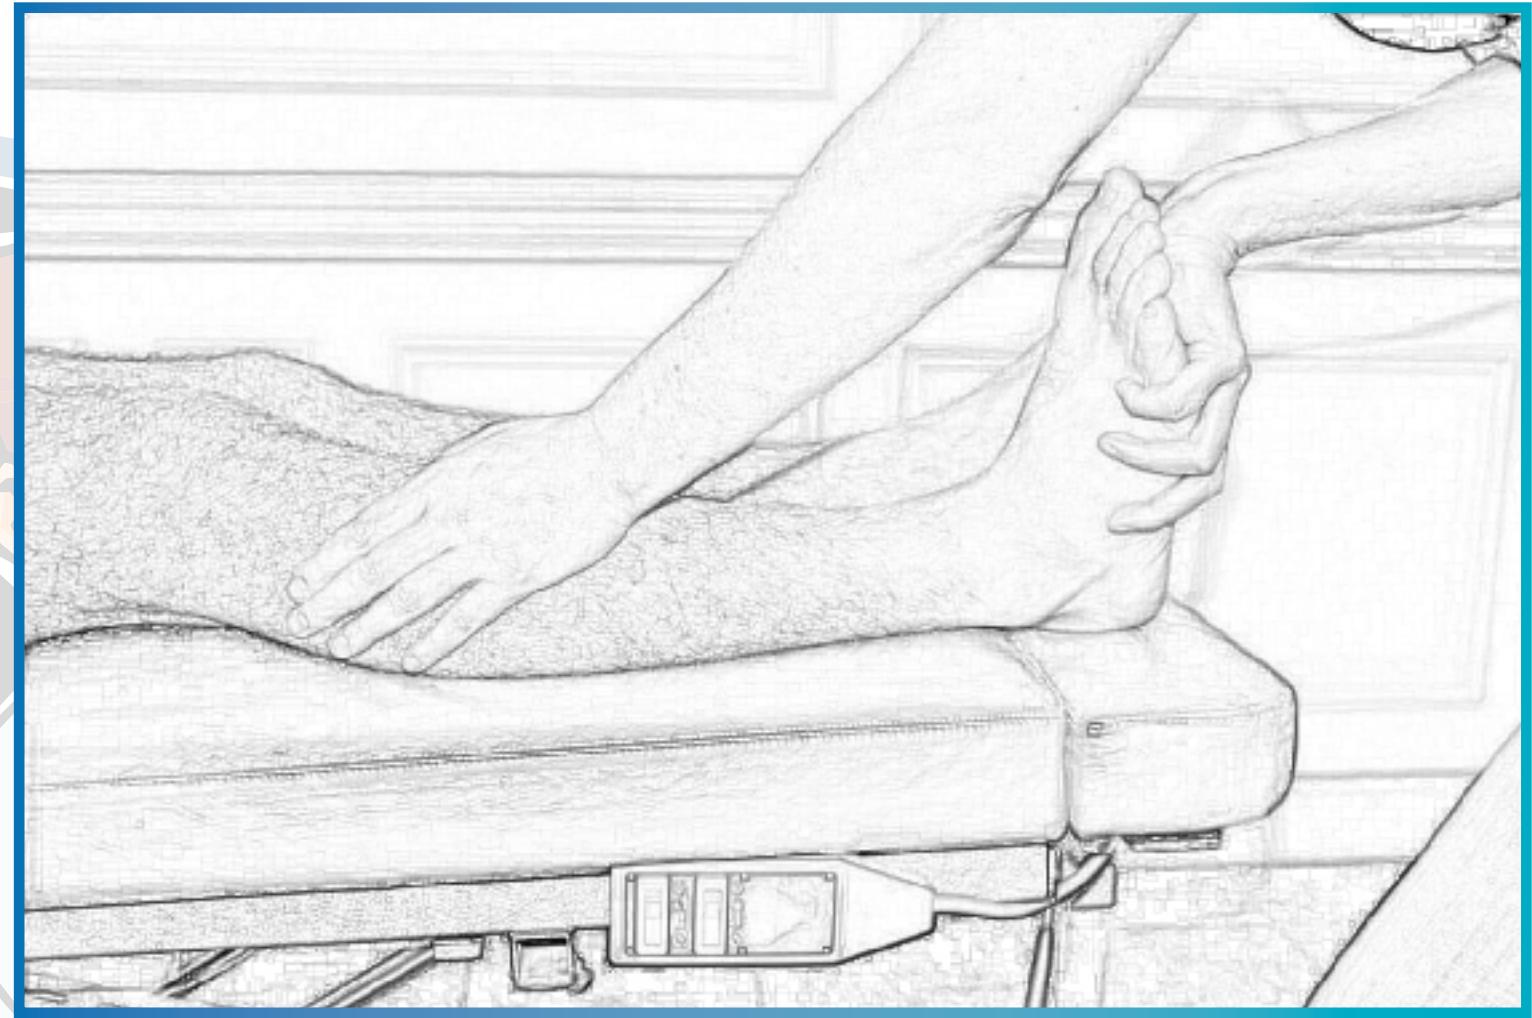

"Test mobilité péroné haut-bas"

"Péroné bas"

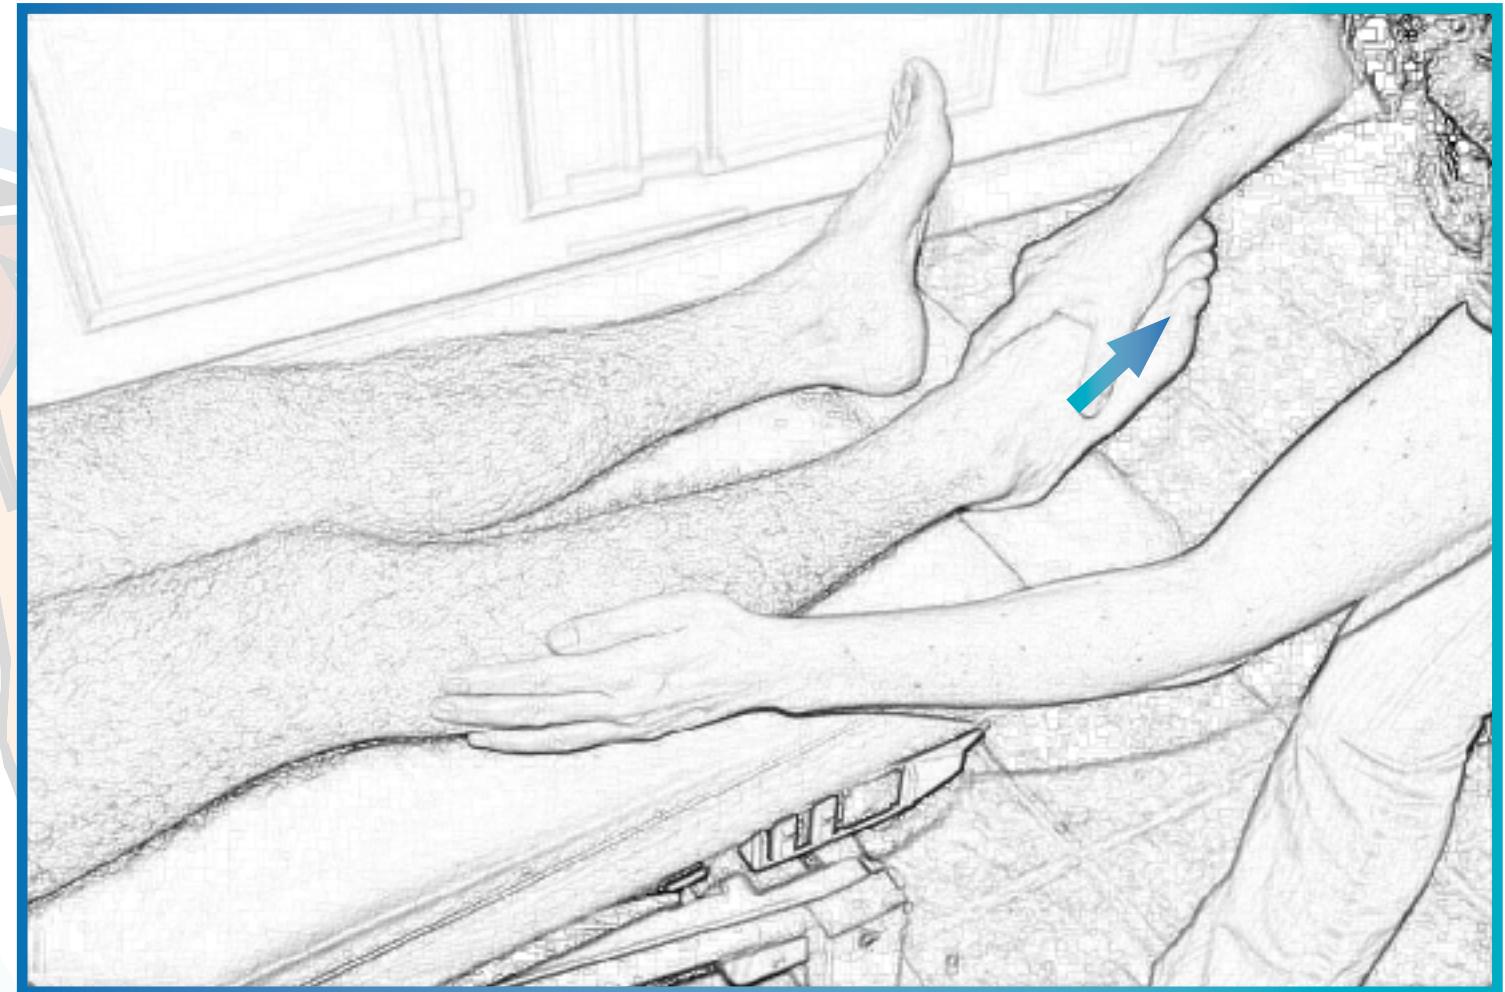

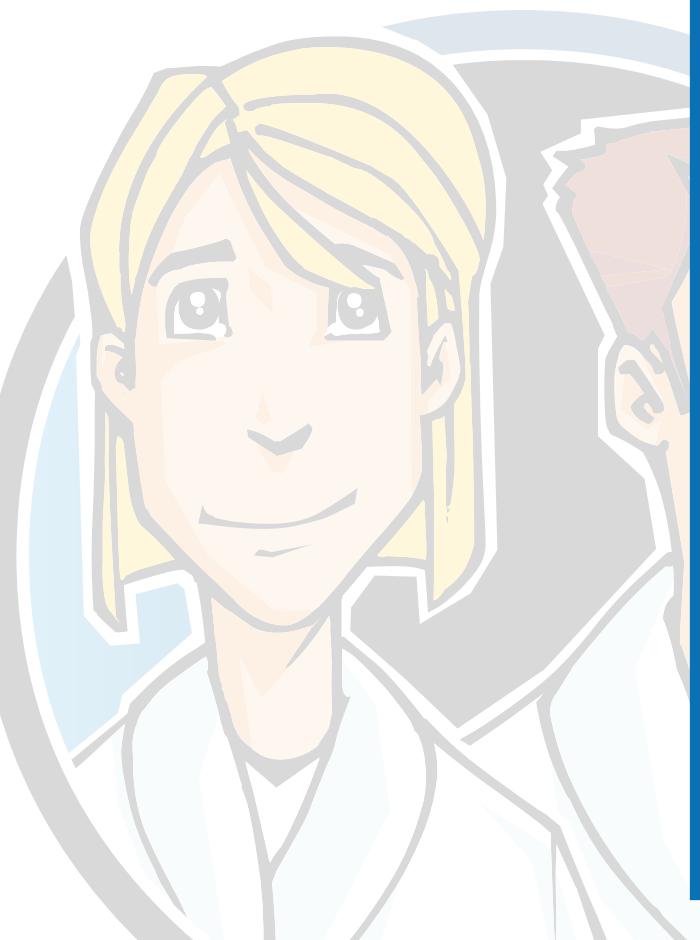

Servicio de rehabilitación

Las cadenas articulares

85

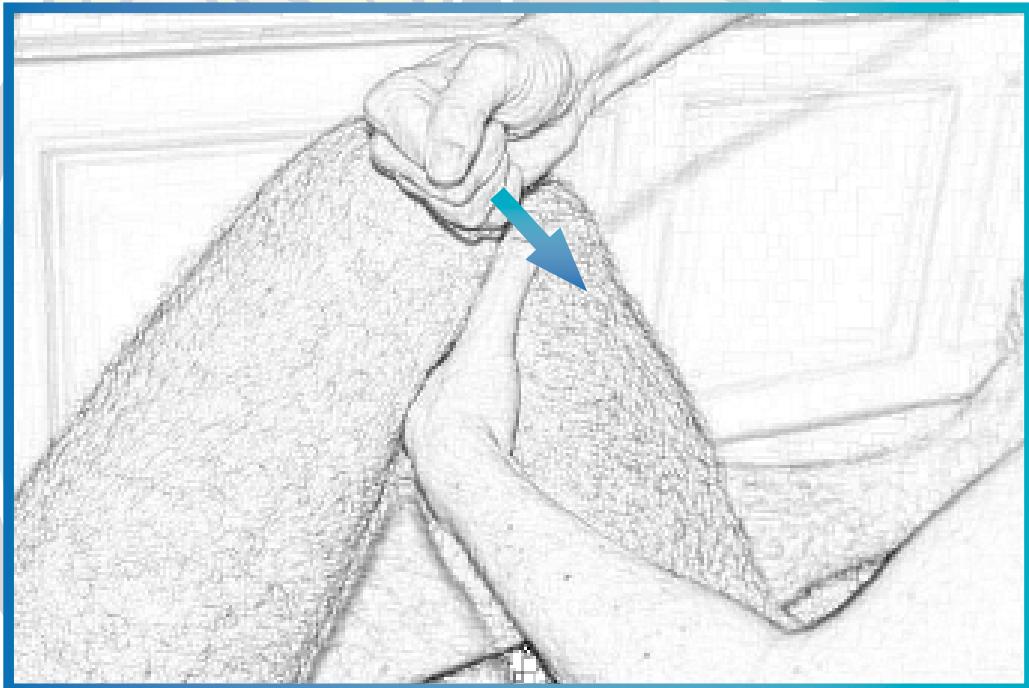

"Noramalisation péroné haut"

"Péroné haut - 2"

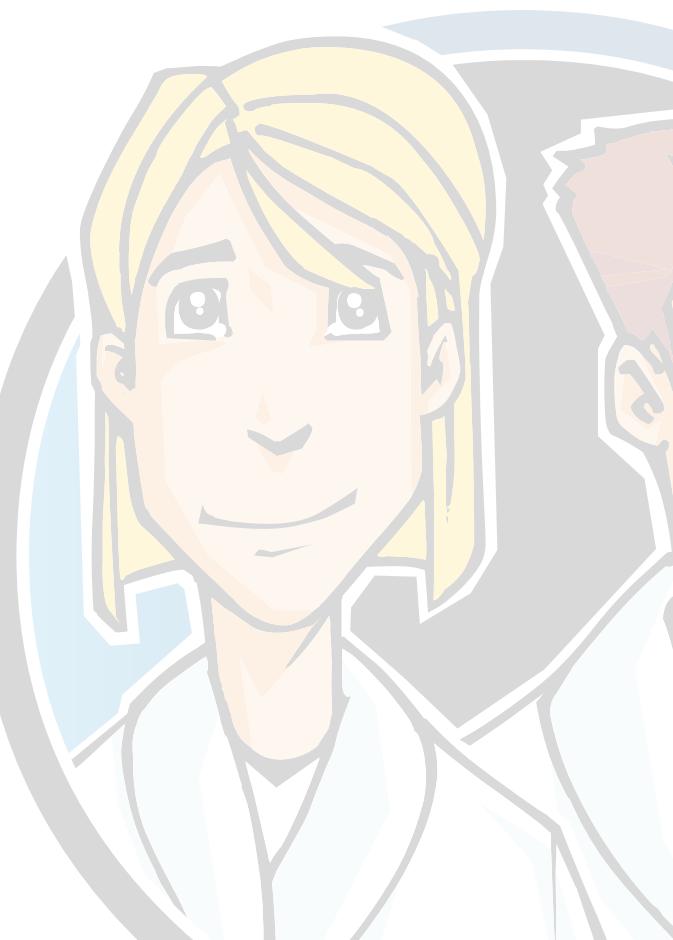

Servicio de rehabilitación

Las cadenas articulares

81

"Mobilisation des malléoles"

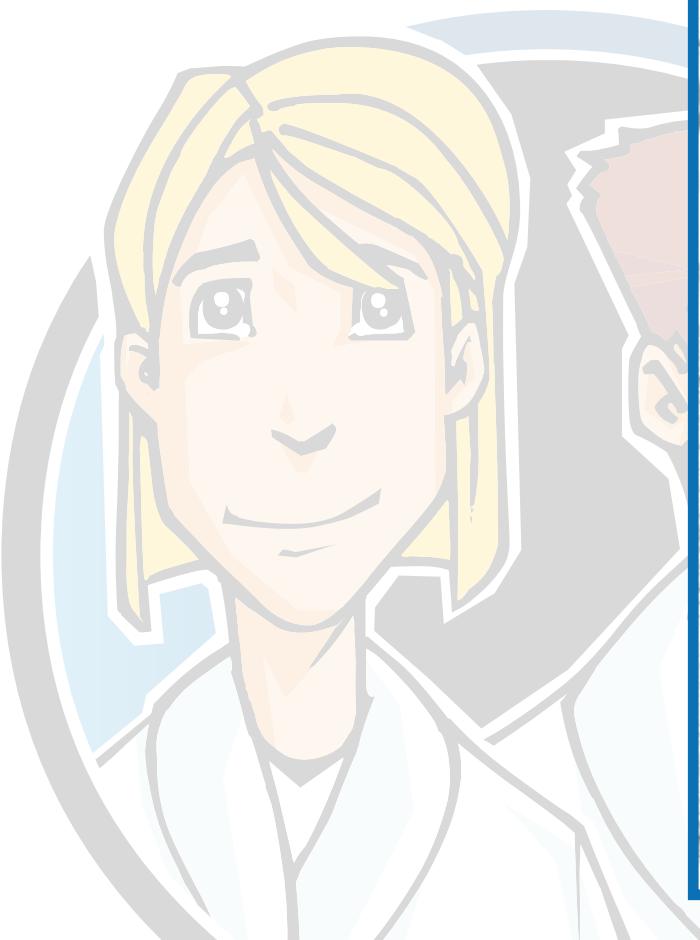

Servicio de rehabilitación

Las cadenas articulares

88

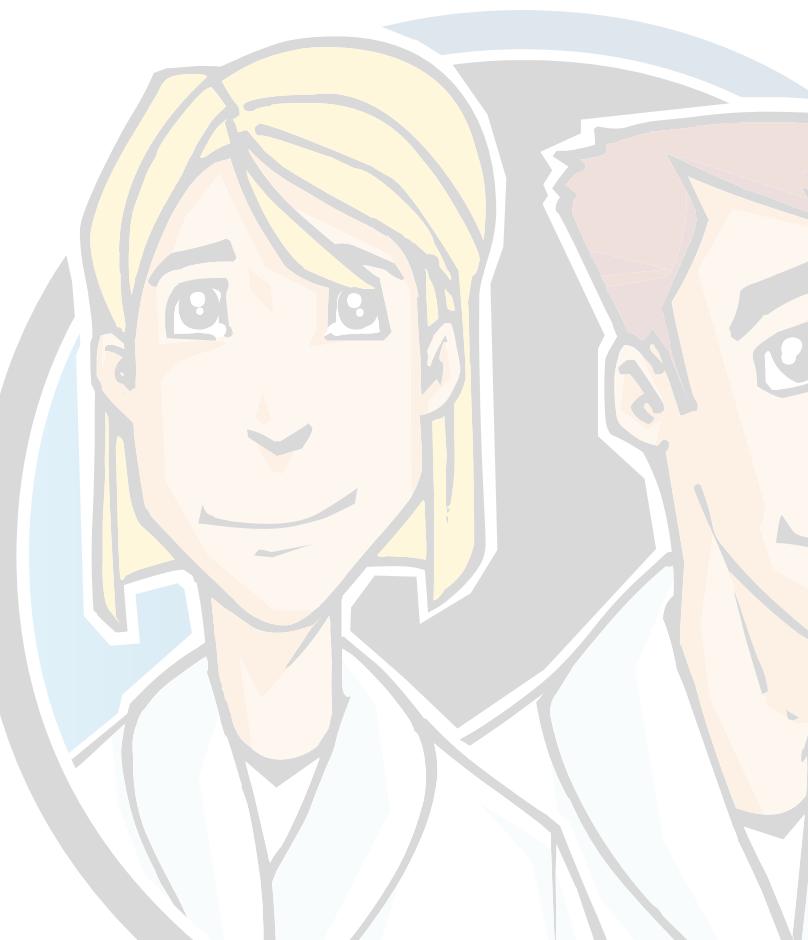

"Mobilisation du péroné d'avant vers l'arrière"

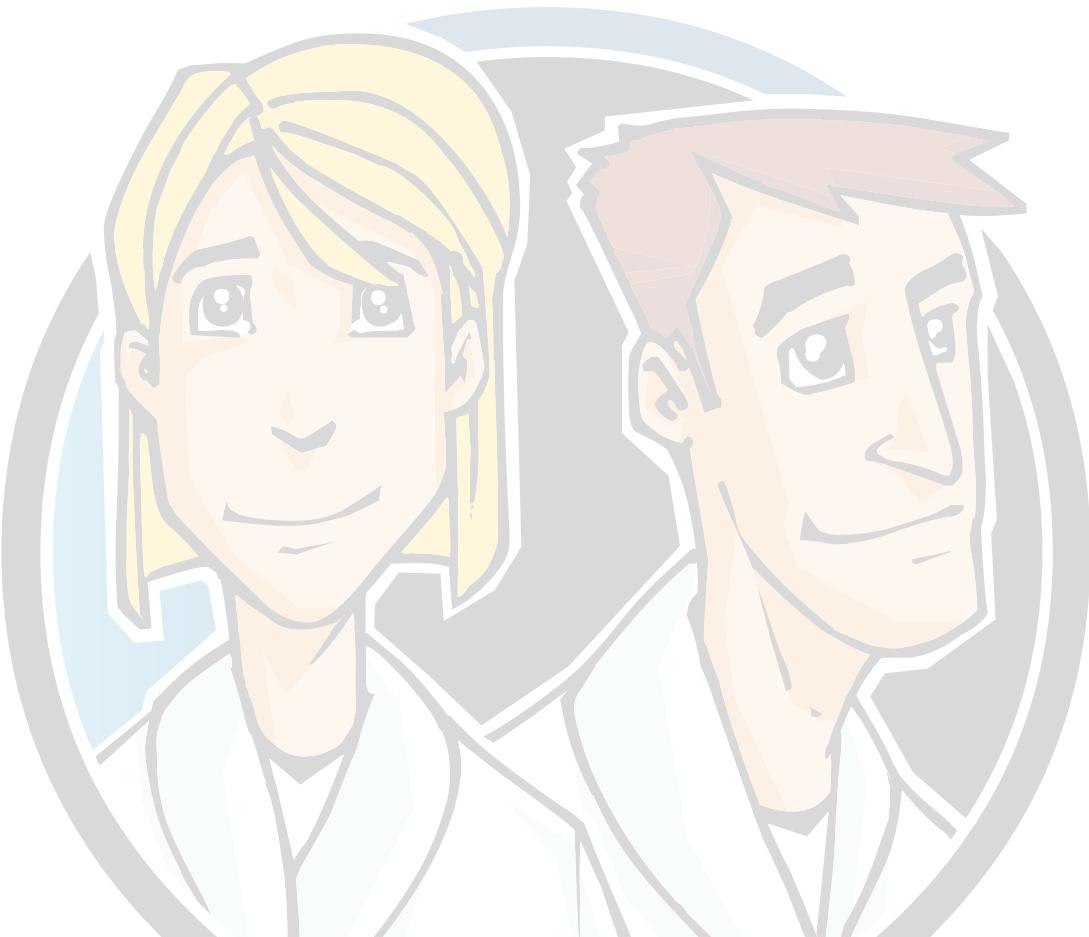

Decoaptación de la articulación Tibio-Tarsiana y de la artic. Subastragalina

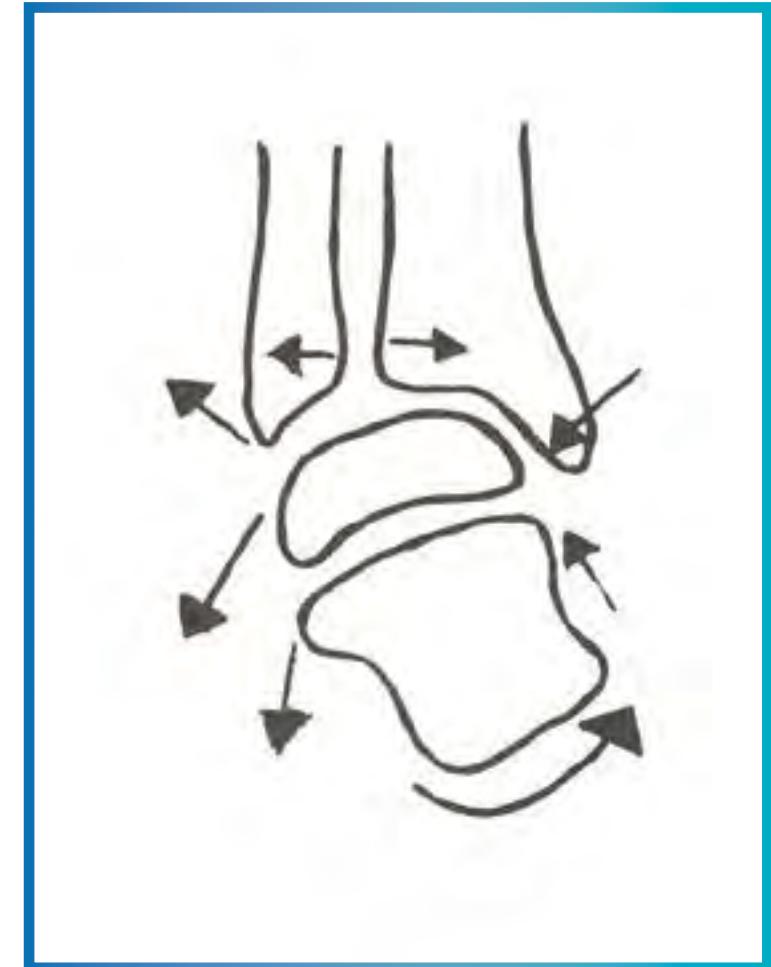

Servicio de rehabilitación

Las cadenas articulares

90

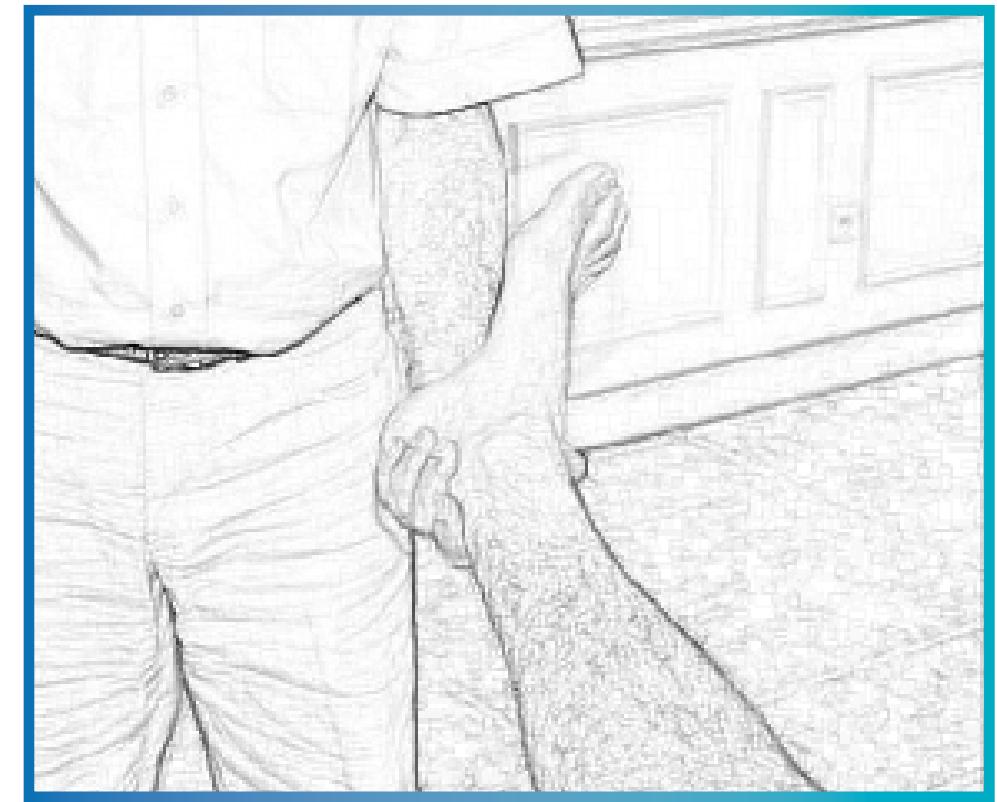

"L'entorse classique"

Normalización de la Entorsis clásica en estructural y en funcional 1

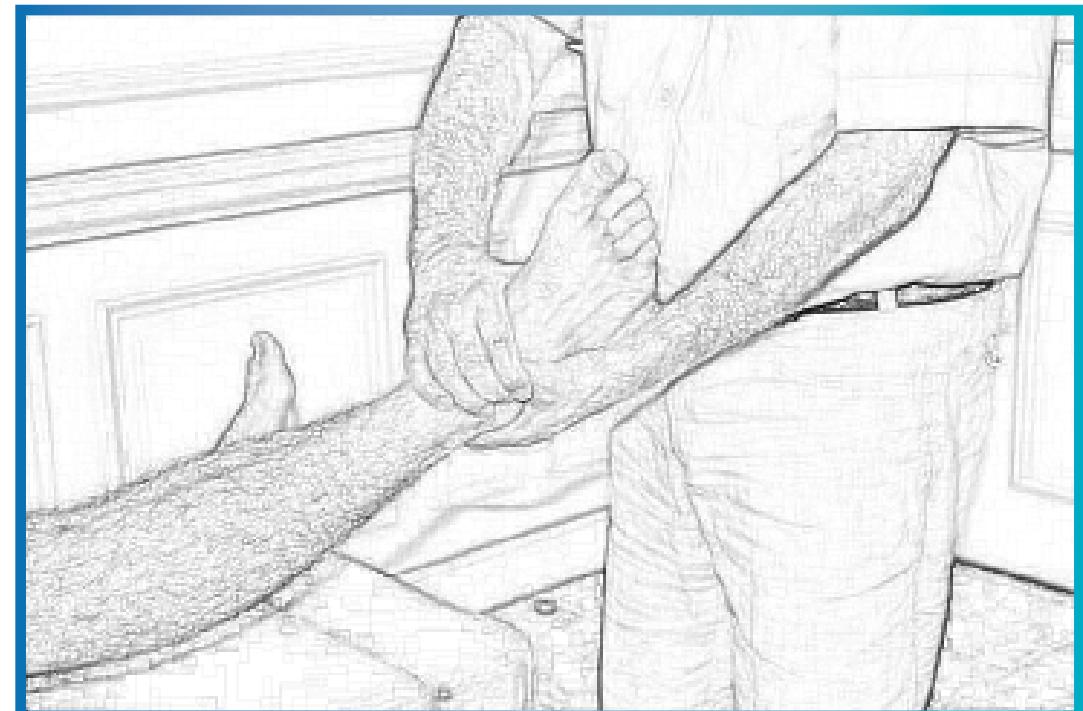

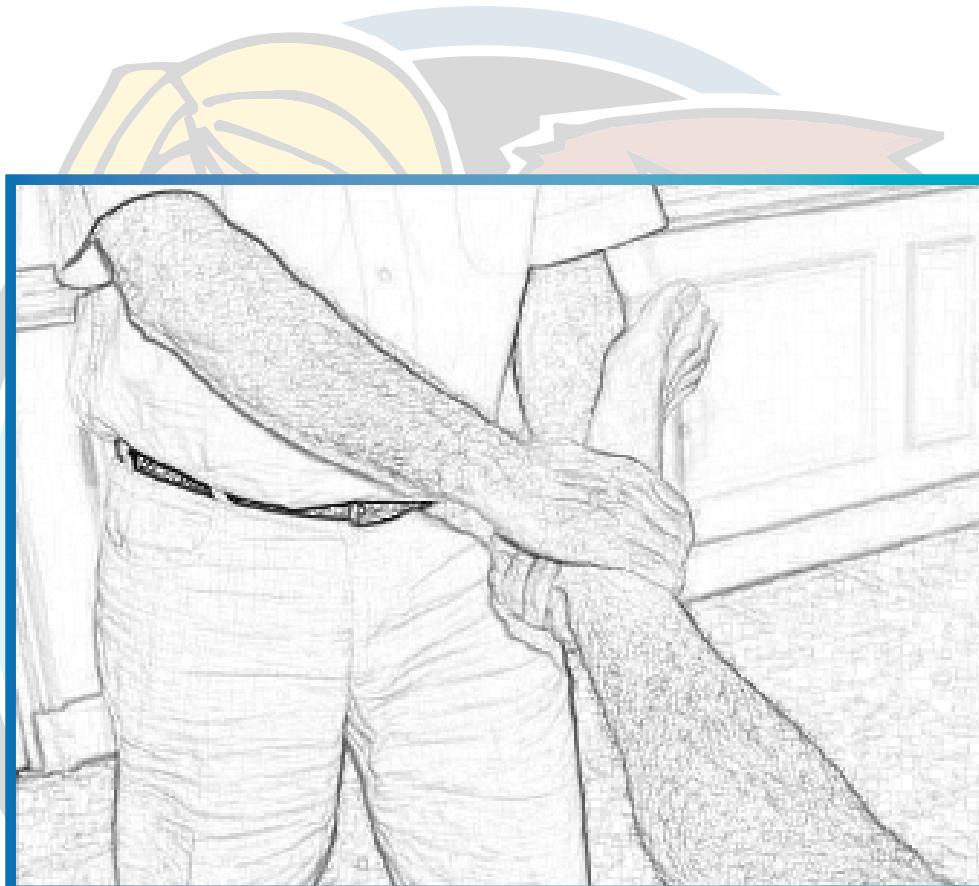

Servicio de rehabilitación

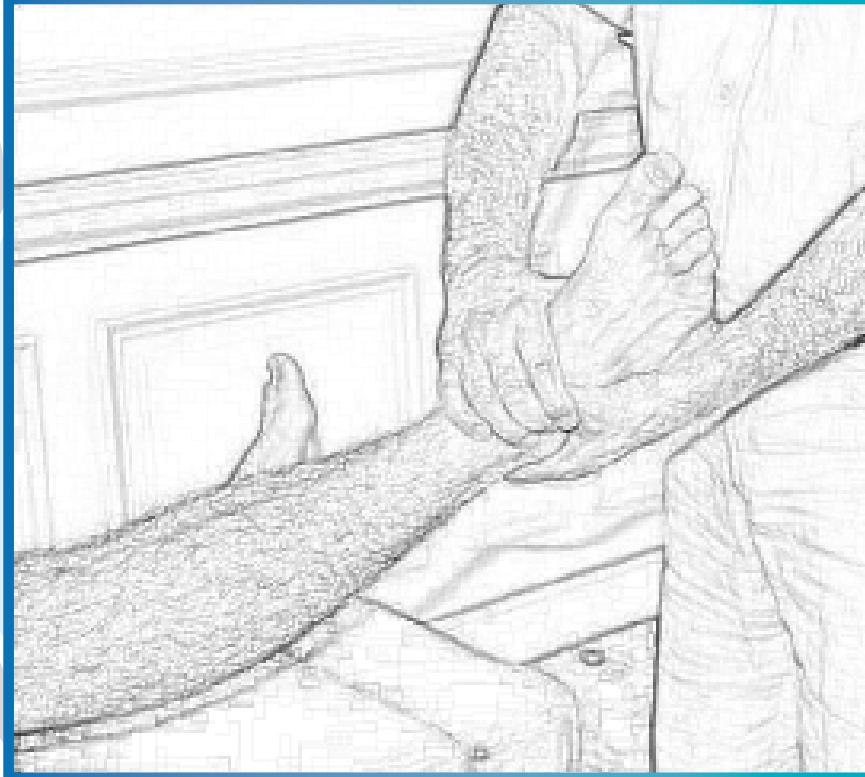

Las cadenas articulares

92

Normalización de la Entorsión clásica en estructural y en funcional 2

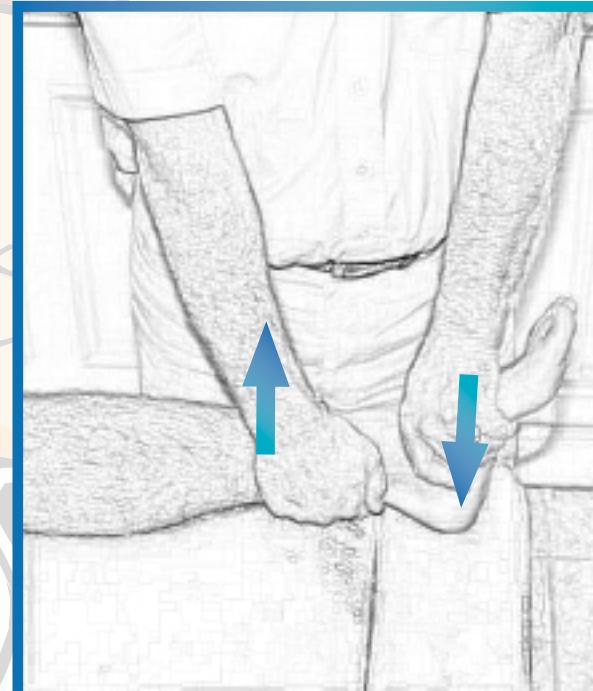

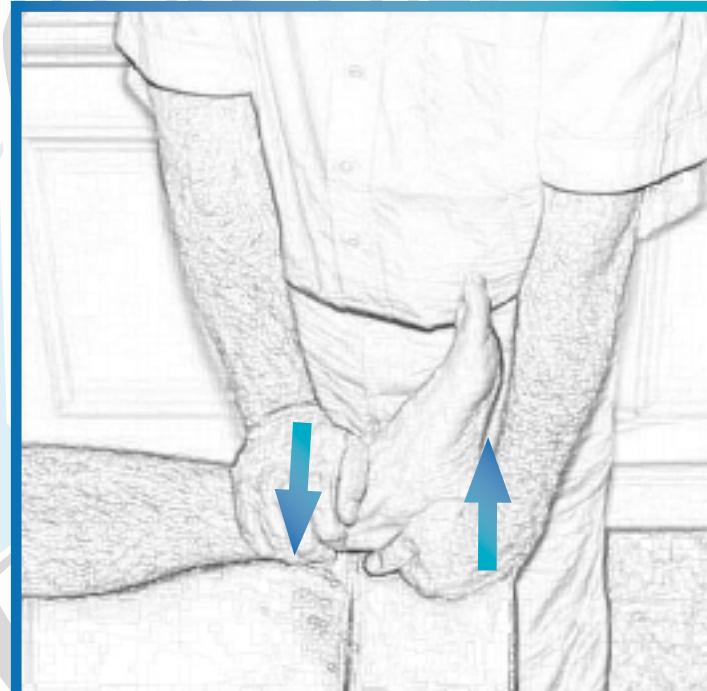

Normalización de la Entorsión clásica en estructural y en funcional 3

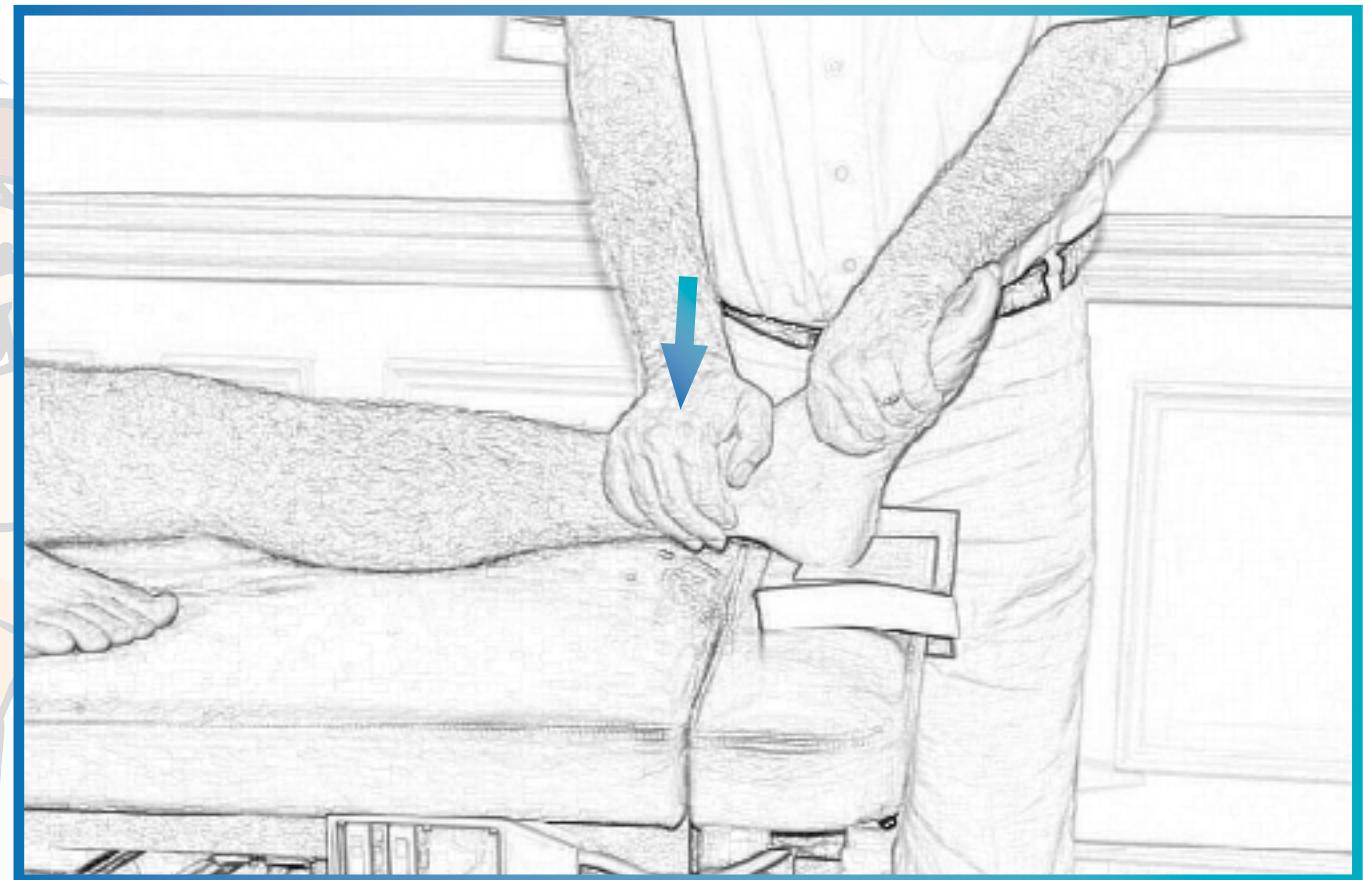

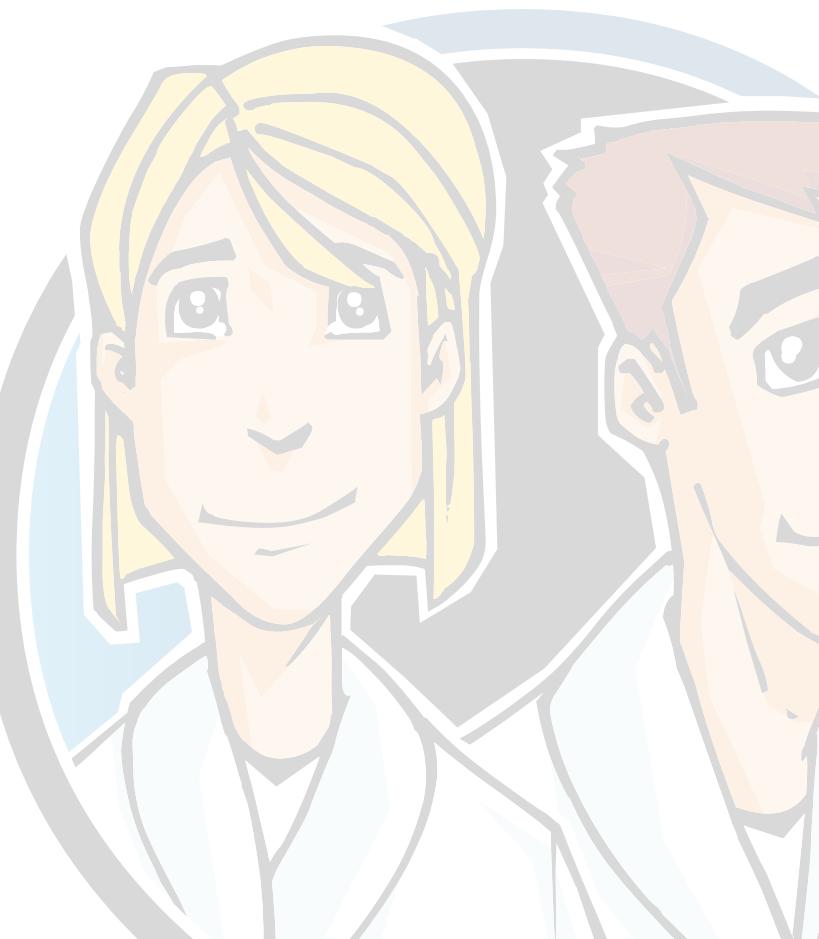

"Normalisation de l'entorse classique en technique fonctionnelle – mobilisation de la tibio-tarsienne"

"Normalisation du tibia en antériorité en technique directe"

Normalización del Cuboides funcional

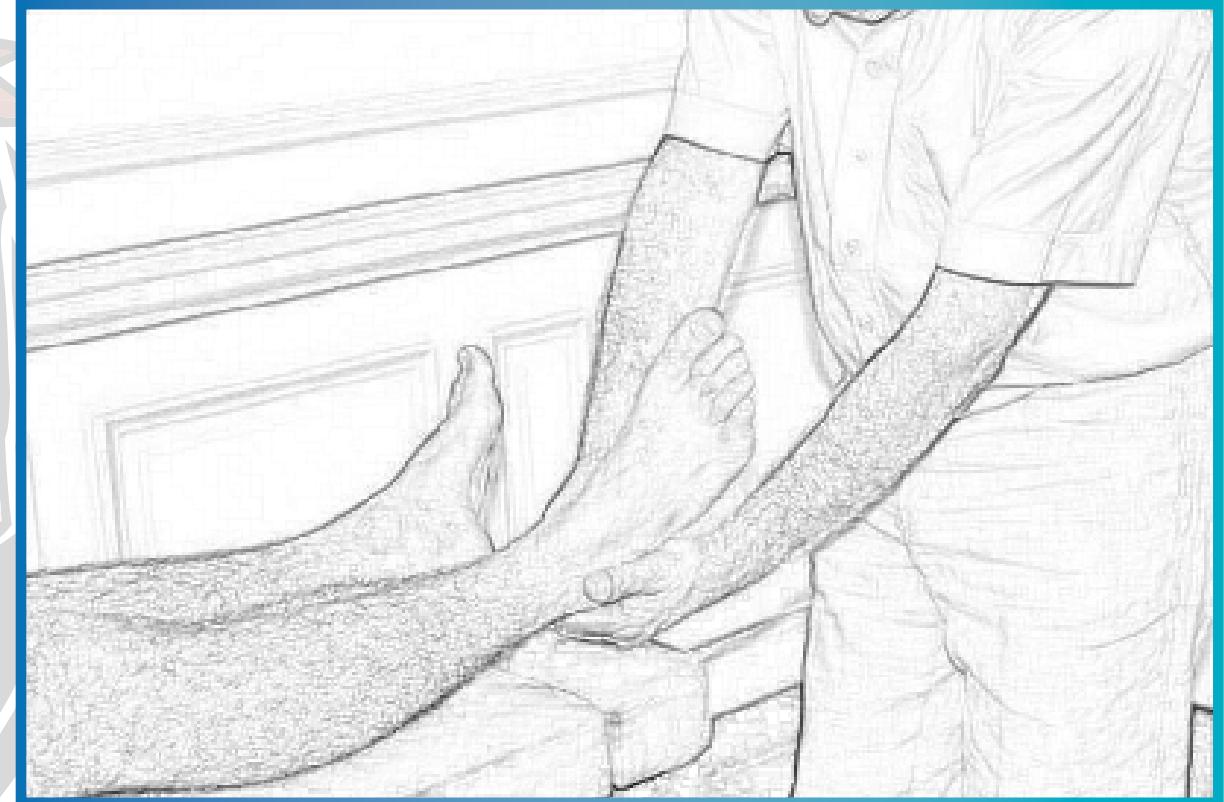

Servicio de rehabilitación

Las cadenas articulares

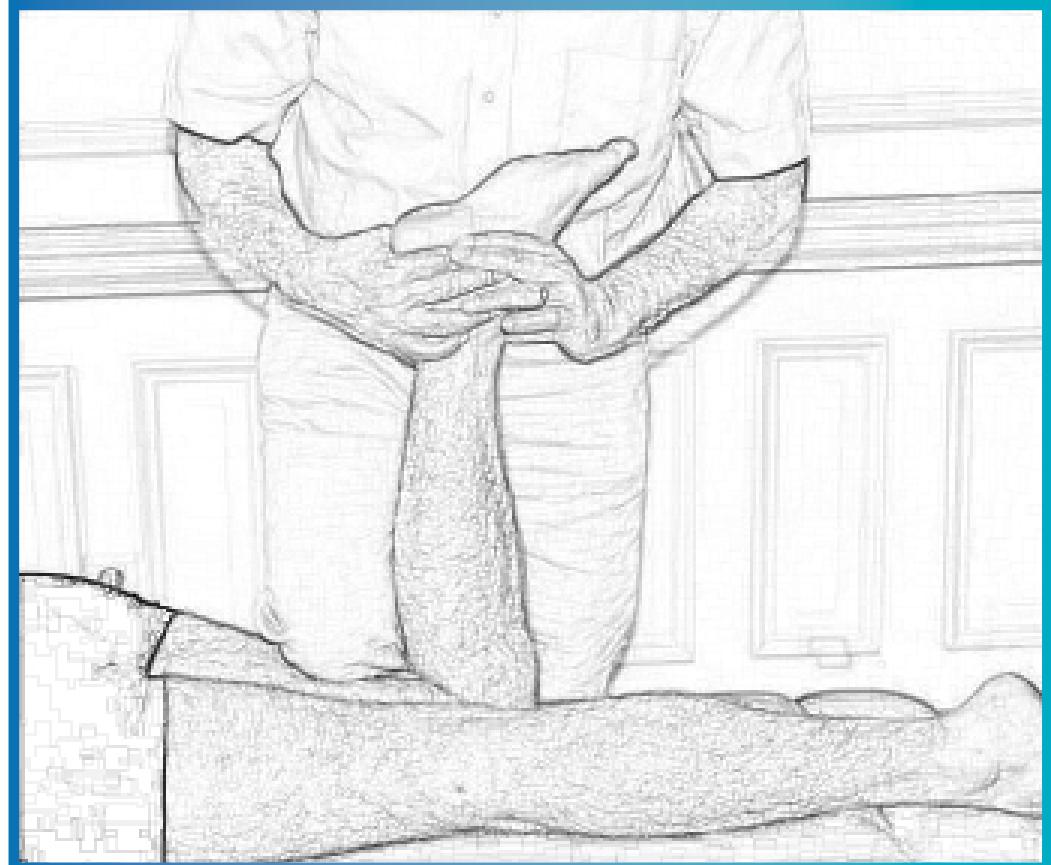

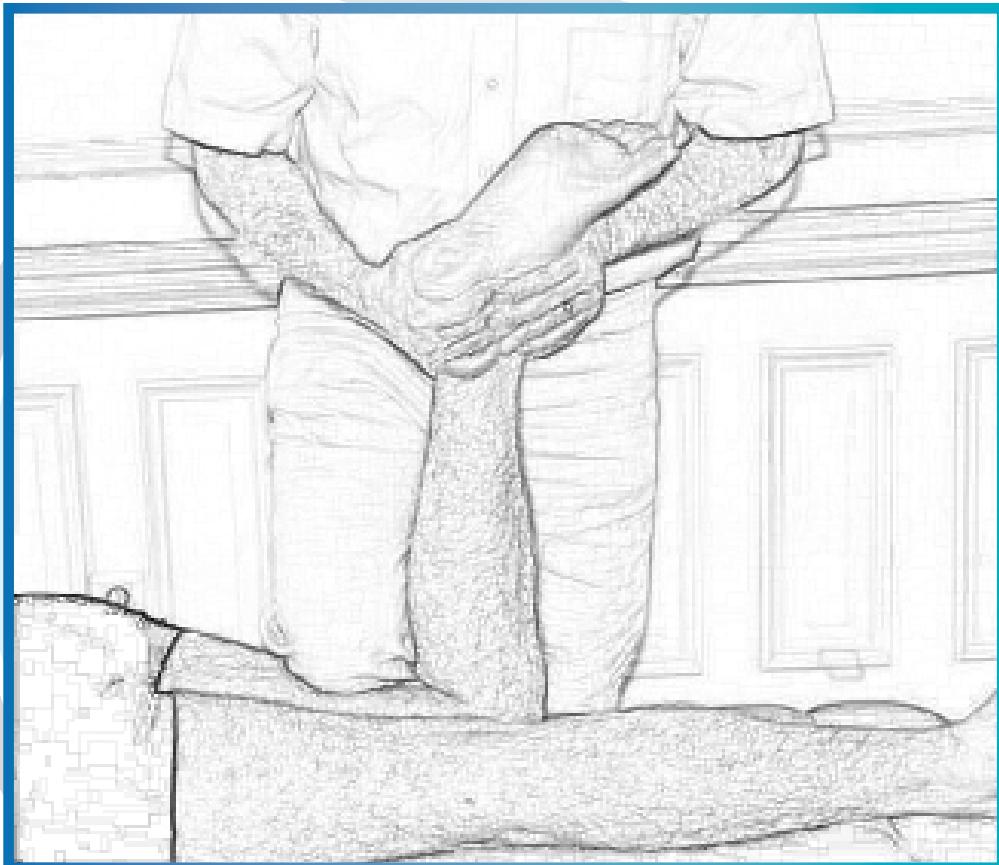

“Les entorses sous astragaliennes” “Pompage de la sous astragalienne”

"Mobilisation de la sous astragalienne"

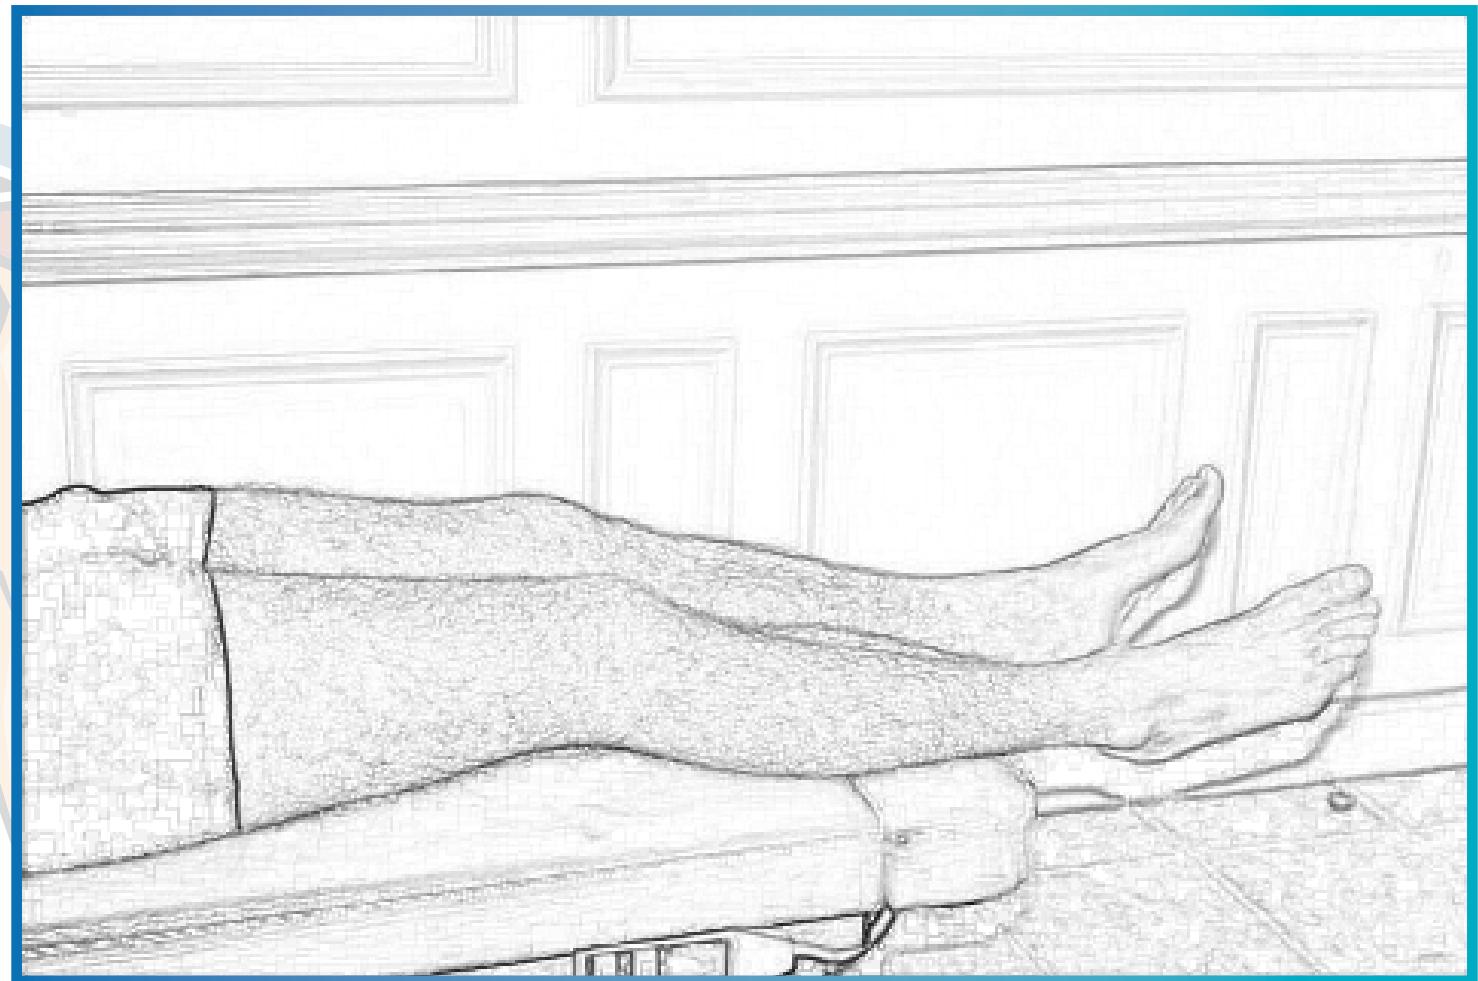

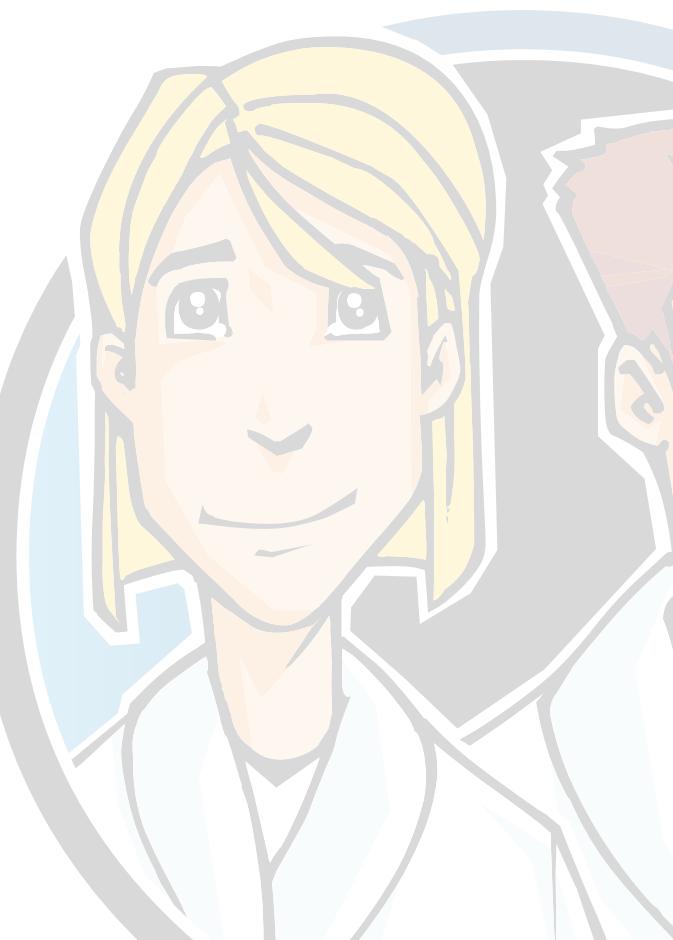

Servicio de rehabilitación

Las cadenas articulares

99

"Mobilisation de la Sous-Astragalienne"

Servicio de rehabilitación

Las cadenas articulares

100

"Mobilisation de la Sous-Astragalienne"

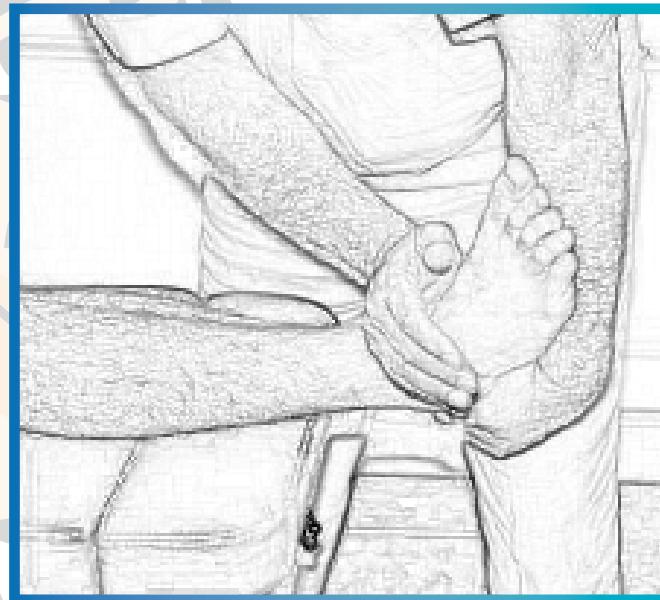

Servicio de rehabilitación

Las cadenas articulares
